For entrepreneurs ready to reach the next level of success, small business owner turned multibillionaire Tilman Fertitta shares the commonsense principles that have rocketed his worldwide hospitality empire to the top. For aspiring entrepreneurs or people in business, this book will help you take your company to the next level. When you put this book down, you'll know what you're doing right and what you're doing wrong to operate your business, and if you're just getting started, it will help set you up for success. Tilman Fertitta, also known as the Billion Dollar Buyer, started his hospitality empire thirty years ago with just one restaurant. So he knows the challenges that business owners face, as well as the common pitfalls that cause them to go under. Over the years he's stayed true to the principles that helped him scale his business to what is believed to be the largest single-shareholder company in America, with over \$4 billion in revenue, including hundreds of restaurants (Landry's Seafood, Bubba Gump Shrimp Company, Morton's Steakhouse, Mastro's, The Chart House, Rainforest Café, and over forty more restaurant concepts) and five Golden Nugget Casinos. He's also sole owner of the NBA's Houston Rockets. In *Shut Up and Listen!*, he shares the key insights that made it all possible. When entrepreneurs appear on *Billion Dollar Buyer*, the biggest obstacles they often face are ones they don't suspect: not knowing your numbers, not knowing your strengths and weaknesses, or not being willing to go that extra mile with your customers. Fertitta has seen it all. He knows that what you aren't paying attention to can either sink your business or become the very things that launch you to the top. As Fertitta says: "You might think you know what you're doing, but I'm going to show you what you don't know." Fertitta shares straight-talk "Tilmanisms" around six key action items that any entrepreneur can adopt today: Be the Bull No Spare Customers Change, Change, Change Know Your Numbers Follow the 95/5 Rule Take No Out of Your Vocabulary A groundbreaking, no-holds-barred book, *Shut Up and Listen!* offers practical, hard-earned wisdom from one of the most successful business owners in the world.

Side Hustle Blueprint

This is the road map to a seven-figure business . . . in one year or less The word "entrepreneur" is today's favorite buzzword, and any aspiring business owner has likely encountered an overwhelming number of so-called "easy paths to success." The truth is that

building a real, profitable, sustainable business requires thousands of hours of commitment, grit, and hard work. It's no wonder why more than half of new businesses close within six years of opening, and fewer than 5 percent will ever earn more than \$1 million annually. *12 Months to \$1 Million* condenses the startup phase into one fast-paced year that has helped hundreds of new entrepreneurs hit the million-dollar level by using an exclusive and foolproof formula. By cutting out the noise and providing a clear and proven plan, this roadmap helps even brand-new entrepreneurs make decisions quickly, get their product up for sale, and launch it to a crowd that is ready and waiting to buy. This one-year plan will guide you through the three stages to your first \$1 million: **The Grind (Months 0-4):** This step-by-step plan will help you identify a winning product idea, target customers that are guaranteed to buy, secure funding, and take your first sale within your first four months. **The Growth (Months 5 - 8):** Once you're in business, you will discover how to use cheap and effective advertising strategies to get your product to at least 25 sales per day, so you can prove you have a profitable business. **The Gold (Months 9-12):** It's time to establish series of products available for sale, until you are averaging at least 100 sales per day, getting you closer to the million-dollar mark every single day. Through his training sessions at *Capitalism.com*, Ryan Daniel Moran has helped new and experienced entrepreneurs launch scalable and sustainable online businesses. He's seen more than 100 entrepreneurs cross the seven-figure barrier, many of whom go on to sell their businesses. If your goal is to be a full-time entrepreneur, get ready for one chaotic, stressful, and rewarding year. If you have the guts to complete it, you will be the proud owner of a million-dollar business and be in a position to call your own shots for life.

Entrepreneurial Leadership

In the spirit of her blockbuster #1 New York Times bestseller *The Happiness Project*, Gretchen Rubin embarks on a new project to make home a happier place. One Sunday afternoon, as she unloaded the dishwasher, Gretchen Rubin felt hit by a wave of homesickness. Homesick—why? She was standing right in her own kitchen. She felt homesick, she realized, with love for home itself. “Of all the elements of a happy life,” she thought, “my home is the most important.” In a flash, she decided to undertake a new happiness project, and this time, to focus on home. And what did she want from her home? A place that calmed her, and energized her. A place that, by making her feel safe, would free her to take risks. Also, while Rubin wanted to be happier at home, she wanted to appreciate how much happiness was there already. So, starting in September (the new January), Rubin dedicated a school year—September through May—to making her home a place of greater simplicity, comfort, and love. In *The Happiness Project*, she worked out general theories of happiness. Here she goes deeper on factors that matter for home, such as possessions, marriage, time, and parenthood. How can she control the cubicle in her pocket? How might she spotlight her family's treasured possessions? And it really was time to replace that dud toaster. Each month, Rubin tackles a different theme as she experiments with concrete, manageable resolutions—and this time, she coaxes her family to try some resolutions, as well. With her signature blend of memoir, science, philosophy, and experimentation, Rubin's passion for her subject jumps off the page, and reading just a few chapters of this book will inspire readers to find more happiness in their own lives.

How to Be a Capitalist Without Any Capital

A remarkable book that will both guide and inspire, *The Happiness of Pursuit* reveals how anyone can bring meaning into their life by undertaking a quest. When he set out to visit all of

the planet's countries by age thirty-five, compulsive goal seeker Chris Guillebeau never imagined that his journey's biggest revelation would be how many people like himself exist -- each pursuing a challenging quest. And, interestingly, these quests aren't just travel-oriented. On the contrary, they're as diverse as humanity itself. Some involve exploration; others the pursuit of athletic or artistic excellence; still others a battle against injustice or poverty or threats to the environment. Everywhere that Chris visited he found ordinary people working toward extraordinary goals, making daily down payments on their dream. These "questers" included a suburban mom pursuing a wildly ambitious culinary project, a DJ producing the world's largest symphony, a young widower completing the tasks his wife would never accomplish, and a teenager crossing an entire ocean alone - as well as a do-it-yourselfer tackling M.I.T.'s computer-science course, a nerd turning himself into real-life James Bond, and scores of others writing themselves into the record books. The more Chris spoke with these strivers, the more he began to appreciate the direct link between questing and long-term happiness -- how going after something in a methodical way enriches our lives -- and he was compelled to complete a comprehensive study of the phenomenon and extract the best advice. In *The Happiness of Pursuit* he draws on interviews with hundreds of questers, revealing their secret motivations, their selection criteria, the role played by friends and family, their tricks for solving logistics, and the importance of documentation. Equally fascinating is Chris's examination of questing's other side, including questers' acute awareness of mortality, their struggle against monotony, and their wistful feelings once a quest has succeeded. What happens after the summit is climbed, the painting hung, the endurance record broken, the "at risk" community saved? A book that challenges each of us to take control -- to make our lives be about something while at the same time remaining clear-eyed about the commitment -- *The Happiness of Pursuit* will inspire readers of every age and aspiration. It's a playbook for making your life count.

Make a lasting impact by launching new initiatives, inspiring others, and championing innovative approaches with this from-the-trenches guide by trusted executive mentor, entrepreneur, and leadership expert Joel Peterson. Many leaders see their roles as presidens/managers, with a primary focus on keeping results consistent with past performance and on budget. These kinds of leaders make important contributions but rarely leave a mark on the businesses they serve. For those wanting to make a lasting impact, new skills are required. They need to learn to launch new initiatives, inspire others, and champion innovative approaches. Joel Peterson calls these higher-level leaders "entrepreneurial leaders," and they create durable enterprises that deliver on their promise. After three careers, four decades of marriage and seven kids, and demanding roles as CFO, CEO, chairman, lead director, adjunct professor, founder, author, entrepreneur and investor, Joel Peterson is often sought as a mentor and coach by leaders and aspiring leaders. He has worked with all types of leaders and considers the entrepreneurial leader to be the highest level of influence. Peterson lays out a path to achieving this summit, with a series of leadership maps organized around the four essential basecamps on the path to Entrepreneurial Leadership: Establishing Trust Creating a Sense of Mission Building a Cohesive Team Executing and Delivering Results These core philosophies, while easy to summarize, can be extremely difficult to implement. As Peterson says: "This book of maps and mindsets is aimed at those who hope to lead others, help them achieve their best, break new barriers, change the status quo, create a legacy, develop a brand, and enjoy a life-altering experience." Let *Entrepreneurial Leadership* guide you on your journey.

Have you reached that point in your job where you're thinking "enough is enough"?

In this book, Christian Rodwell, the Founder of Escape The Rat Race, shows that there is a proven process anyone who is currently employed but looking to start their own business can follow: "The choices for someone wishing to exit a corporate 9-5 job and start a new business are numerous and this can easily lead to overwhelm, confusion, and over-analysing the options for so long that you end up taking no action at all. Finding enough time to fit your new business around your full time job and family commitments will also be a challenge, which is why I've dedicated an entire chapter to show you ways to overcome this." Not everyone who wishes to quit the rat race and start a business knows exactly what business would be best suited to them initially. This book will help you to get to know yourself better, identifying your motives for wanting to sack your boss and answering the question, "what would I would love to do each day if money were no object?". Christian Rodwell has been through all of these challenges himself, and has worked with over 1000 other "#escapees" who are on the same journey. Christian illustrates within this book his process for helping such individuals map out their very own "9-5 escape plan" - "The Five Step Freedom Formula". Physical retail isn't dead—but boring retail is! Remarkable Retail equips the savvy retailer with eight essential strategies to deliver a powerful customer experience. Despite the clickbait headlines that warn of a “retail apocalypse,” many brick and mortar retail brands are enjoying strong growth and profits. Others, however, are destined to become obsolete because they offer merely convenience, decent prices, or an okay shopping experience. In Remarkable Retail, industry thought leader Steve Dennis argues that retailers can no longer count on scarcity to drive sales, or settle for providing indifferent in-store experiences, because customers live online and have a wealth of choice and information at their fingertips. In the book, Dennis unpacks the trends that are squeezing traditional stores and presents eight essential strategies for visionary retail leaders who are prepared to reimagine the customer experience in the age of digital disruption. A remarkable retailer is digitally enabled, human centered, harmonized, mobile, personal, connected, memorable, and radical. In most retail categories, digital channels are now central to the consumer's journey, but that doesn't mean people aren't also shopping in stores. Packed with illuminating case studies from some of modern retail's biggest success stories, Remarkable Retail shows retailers and those in adjunct industries such as manufacturing, marketing, and tech, what it takes to create big buzz around the in-store experience. In an age where consumers have short attention spans and myriad options, Remarkable Retail is your crucial roadmap to creating a powerful retail experience that keeps your customers coming back for more.

The Ebony Tower

A dynamic and inspiring exploration of the new science that is redrawing the future for people in their forties, fifties, and sixties for the better—and for good. There's no such thing as an inevitable midlife crisis, Barbara Bradley Hagerty writes in this provocative, hopeful book. It's a myth, an illusion. New scientific research explodes the fable that midlife is a time when things start to go downhill for everybody. In fact, midlife can be a great new adventure, when you can embrace fresh possibilities, purposes, and pleasures. In *Life Reimagined*, Hagerty explains that midlife is about renewal: It's the time to renegotiate your purpose, refocus your relationships, and transform the way you think about the world and yourself. Drawing from emerging information in neurology, psychology, biology, genetics, and sociology—as well as her own story of midlife transformation—Hagerty redraws the map for people in midlife and plots a new course forward in understanding our health, our relationships, even our futures.

12 Months to \$1 Million

New York Times Bestseller | Washington Post Bestseller The author of the blockbuster New York Times bestsellers, *The Happiness Project* and *Happier at Home*, tackles the critical question: How do we change? Gretchen Rubin's answer: through habits. Habits are the invisible architecture of everyday life. It takes work to make a habit, but once that habit is set, we can harness the energy of habits to build happier, stronger, more productive lives. So if habits are a key to change, then what we really need to know is: How do we change our habits? *Better than Before* answers that question. It presents a practical, concrete framework to allow readers to understand their habits—and to change them for good. Infused with Rubin's compelling voice, rigorous research, and easy humor, and packed with vivid stories of lives transformed, *Better than Before* explains the (sometimes counter-intuitive) core principles of habit formation. Along the way, Rubin uses herself as guinea pig, tests her theories on family and friends, and answers readers' most pressing questions—oddly, questions that other writers and researchers tend to ignore: “Why do I find it tough to create a habit for something I love to do?” “Sometimes I can change a habit overnight, and sometimes I can't change a habit, no matter how hard I try. Why?” “How quickly can I change a habit?” “What can I do to make sure I stick to a new habit?” “How can I help someone else change a habit?” “Why can I keep habits that benefit others, but can't make habits that are just for me? Whether readers want to get more sleep, stop checking their devices, maintain a healthy weight, or finish an important project, habits make change possible. Reading just a few chapters of *Better Than Before* will make readers eager to start work on their own habits—even before they've finished the book.

"What are you reading?" That's the question Will Schwalbe asks his mother, Mary Anne, as they sit in the waiting room of the Memorial Sloan-Kettering Cancer Center. In 2007, Mary Anne returned from a humanitarian trip to Pakistan and Afghanistan suffering from what her doctors believed was a rare type of hepatitis. Months later she was diagnosed with a form of advanced pancreatic cancer, which is almost always fatal, often in six months or less. This is the inspiring true story of a son and his mother, who start a "book club" that brings them together as her life comes to a close. Over the next two years, Will and Mary Anne carry on conversations that are both wide-ranging and deeply personal, prompted by an eclectic array of books and a shared passion for reading. Their list jumps from classic to popular, from poetry to mysteries, from fantastic to spiritual. The issues they discuss include questions of faith and courage as well as everyday topics such as expressing gratitude and learning to listen. Throughout, they are constantly reminded of the power of books to comfort us, astonish us, teach us, and tell us what we need to do with our lives and in the world. Reading isn't the opposite of doing; it's the opposite of dying. Will and Mary Anne share their hopes and concerns with each other—and rediscover their lives—through their favorite books. When they read, they aren't a sick person and a well person, but a mother and a son taking a journey together. The result is a profoundly moving tale of loss that is also a joyful, and often humorous, celebration of life: Will's love letter to his mother, and theirs to the printed page. This eBook edition includes a Reading Group Guide.

The End of Your Life Book Club

THE INSTANT #1 NATIONAL BESTSELLER From the #1 New York Times bestselling authors of *Extreme Ownership* comes a new and revolutionary approach to help leaders recognize and attain the leadership balance crucial to victory. With their first book, *Extreme Ownership* (published in October 2015), Jocko Willink and Leif Babin set a new standard for leadership, challenging readers to become better leaders, better followers, and better people, in both their professional and personal lives. Now, in *THE DICHOTOMY OF LEADERSHIP*, Jocko and Leif dive even deeper into the uncharted and complex waters of a concept first introduced in *Extreme Ownership*: finding balance between the opposing forces that pull every leader in different directions. Here, Willink and Babin get granular into the nuances that every successful leader must navigate. Mastering the Dichotomy of Leadership requires understanding when to lead and when to follow; when to aggressively maneuver and when to pause and let things develop; when to detach and let the team run and when to dive into the details and micromanage. In addition, every leader must:

- Take Extreme Ownership of everything that impacts their mission, yet utilize Decentralize Command by giving ownership to their team.
- Care deeply about their people and their individual success and livelihoods, yet look out for the good of the overall team and above all accomplish the strategic mission.
- Exhibit the most important quality in a leader—humility, but also be willing to speak up and push back against questionable decisions that could hurt the team and the mission.

With examples from the authors' combat and training experiences in the SEAL teams, and then a demonstration of how each lesson applies to the business world, Willink and Babin clearly explain *THE DICHOTOMY OF LEADERSHIP*—skills that are mission-critical for any leader and any team to achieve their ultimate goal: VICTORY.

And I'm betting that once inspired, you'll actually make something happen."

Pappyland

An instant New York Times bestseller From the bestselling author of *The Cost of These Dreams* The story of how Julian Van Winkle III, the caretaker of the most coveted cult Kentucky Bourbon whiskey in the world, fought to protect his family's heritage and preserve the taste of his forebears, in a world where authenticity, like his product, is in very short supply. As a journalist said of Pappy Van Winkle, "You could call it bourbon, or you could call it a \$5,000 bottle of liquified, barrel-aged unobtainium." Julian Van Winkle, the third-generation head of his family's business, is now thought of as something like the Buddha of Bourbon - Booze Yoda, as Wright Thompson calls him. He is swarmed wherever he goes, and people stand in long lines to get him to sign their bottles of Pappy Van Winkle Family Reserve, the whiskey he created to honor his grandfather, the founder of the family concern. A bottle of the 23-year-old Pappy starts at \$3000 on the internet. As Julian is the first to say, things have gone completely nuts. Forty years ago, Julian would have laughed in astonishment if you'd told him what lay ahead. He'd just stepped in to try to save the business after his father had died, partly of heartbreak, having been forced to sell the old distillery in a brutal downturn in the market for whiskey. Julian's grandfather had presided over a magical kingdom of craft and connoisseurship, a genteel outfit whose family ethos generated good will throughout Kentucky and far beyond. There's always a certain amount of romance to the marketing of spirits, but Pappy's mission statement captured something real: "We make fine bourbon - at a profit if we can, at a loss if we must, but always fine bourbon." But now the business had hit the wilderness years, and Julian could only hang on for dear life, stubbornly committed to preserving his namesake's legacy or going down with the ship. Then something like a miracle happened: it turned out that hundreds of very special barrels of whiskey from the Van Winkle family distillery had been saved by the multinational conglomerate that bought it. With no idea what they had, they offered to sell it to Julian, who scrambled to beg and borrow the funds. Now he could bottle a whiskey whose taste captured his family's legacy. The result would immediately be hailed as the greatest whiskey in the world - and would soon be the hardest to find. But now, those old barrels were used up, and Julian Van Winkle faced the challenge of his lifetime: how to preserve the taste of Pappy, the taste of his family's heritage, in a new age? The amazing Wright Thompson was invited to be his wingman as he set about to try. The result is an extraordinary testimony to the challenge of living up to your legacy and the rewards that come from knowing and honoring your people and your craft. Wright learned those lessons from Julian as they applied to the honest work of making a great bourbon whiskey in Kentucky, but he couldn't help applying them to his own craft, writing, and his upbringing in Mississippi, as he and his wife contemplated the birth of their first child. May we all be lucky enough to find some of ourselves, as Wright Thompson did, in Julian Van Winkle, and in Pappyland.

Small Is the New Big

Instant Wall Street Journal Bestseller! You don't need to be Ivy League educated, have money, be creative, or even have an idea to get rich. You just need to be willing to break the rules. At nineteen, I founded a software company with \$119 in my bank account. Five years later, it was valued at \$10.5 million. I don't consider myself exceptionally brilliant. I just realized something few people know: You don't need lots of money or an original idea to get really rich. Now, I

make more than \$100,000 in passive income every month, while also running my own private equity firm and hosting The Top Entrepreneurs podcast, which has more than 10 million downloads. This book will show you how I went from college dropout to member of the New Rich. And I'm holding nothing back. You'll see my tax returns, my profit and loss statements, my email negotiations when buying and selling companies. It's time to forget your grandfather's advice. I'll teach you how to be a modern opportunist--investor, entrepreneur, or side hustler--by breaking these four golden rules of the old guard: 1.Focus on one skill: Wrong. Don't cultivate one great skill to get ahead. In today's business world, success goes to the multitaskers. 2.Be unique: Wrong. The way to get rich is not by launching a new idea but by aggressively copying others and then adding your own twist. 3.Focus on one goal: Wrong. Focus instead on creating a system to produce the outcome you want, not just once, but over and over again. 4.Appeal to the masses: Wrong. The masses are broke (\$4k average net worth in America?). Let others cut a trail through the jungle so you can peacefully walk in and capitalize on their hard work. By rejecting these defunct rules and following my unconventional path, you can copy other people's ideas shamelessly, bootstrap a start-up with almost no funding, invest in small local businesses for huge payoffs, and reap all the benefits.
