## Jesus Hopped the 'A' Train

"Perfectly wonderful." —Becky Albertalli, New York Times bestselling author of Simon vs. the Homo Sapiens Agenda In Sophie Gonzales' Perfect on Paper, Leah on the Offbeat meets To All the Boys I've Loved Before: a bisexual girl who gives anonymous love advice to her classmates is hired by the hot guy to help him get his ex back Her advice, spot on. Her love life, way off. Darcy Phillips: — Can give you the solution to any of your relationship woes—for a fee. — Uses her power for good. Most of the time. — Really cannot stand Alexander Brougham. — Has maybe not the best judgement when it comes to her best friend, Brooke who is in love with someone else. — Does not appreciate being blackmailed. However, when Brougham catches her in the act of collecting letters from locker 89—out of which she's been running her questionably legal, anonymous relationship advice service—that's exactly what happens. In exchange for keeping her secret, Darcy begrudgingly agrees to become his personal dating coach—at a generous hourly rate, at least. The goal? To help him win his ex-girlfriend back. Darcy has a good reason to keep her identity secret. If word gets out that she's behind the locker, some things she's not proud of will come to light, and there's a good chance Brooke will never

speak to her again. Okay, so all she has to do is help an entitled, bratty, (annoyingly hot) guy win over a girl who's already fallen for him once? What could go wrong?

## One Direction: Where We Are

### Fahrenheit 451

The last general election saw the Conservatives win their highest vote share in forty years, while Labour slumped to their lowest seat total since 1935. At the heart of this electoral earthquake was the so-called "Red Wall", some sixty seats stretching from the Midlands up to the north of England. Who are the Red Wall voters and why did they forgo their long-standing party loyalties? Did they simply lend their votes to Johnson to get Brexit done – or will he be able to win them over more permanently? And as the Labour Party licks its wounds, how were those votes thrown away and what, if anything, can be done to win them back? And how will the pandemic and the government's reaction to it change the voter's outlook on party politics in the future? Will everything be the same after it has passed? This book sets out to answer those questions by putting them to the people who will decide the next election.

A history of the UK's regional inequalities, and why they matter Britain has scarcely begun to come to terms with its recent upheavals, from the crisis over Brexit to the collapse of Labour's "red wall." What can explain such momentous shifts? In this essential work, Tom Hazeldine excavates the history of a divided country: North and South, industry versus finance, Whitehall and the left-behind. Only by fully registering these deep-seated tensions, he argues, can we make sense of the present moment. Hazeldine tracks the North-South divide over the *longue durée*, from the formation of an English state rooted in London and the south-east; the Industrial Revolution and the rise of provincial trade unions and the Labour party; the dashed hopes for regional economic renewal in the post-war years; the sharply contrasting fates of northern manufacturing and the City of London under Thatcher and New Labour; to the continuing repercussions of financial crisis and austerity. The Northern Question is set to transform our understanding of the politics of Westminster--its purpose, according to Hazeldine, to stand English history on its head.

## Eloise in Paris

Collins leads a breathtaking lion hunt in his marvellous introduction to one of the British Museum's fiercest and most

famous treasures (Times [UK]) Between the ninth and seventh centuries BCE, the small kingdom of Assyria (present-day northern Iraq) expanded through conquest from Egypt to Iran. The relief sculptures that decorated Assyrian palaces represent the high point of Mesopotamian art of the first millennium BCE, both for their artistic quality and their vivid depictions of warfare, rituals, mythology, hunting, and other aspects of Assyrian life. Together, the sculptures constitute some of the most impressive and eloquent witnesses of the ancient Near East, their importance only increasing with the recent destruction by ISIS of many of the reliefs that remained in Iraq. Originally published by the British Museum in 2008, this book serves as a superb visual introduction to these extraordinary sculptures, showcasing a series of stunning photographs of the museum's unrivaled collection of Assyrian reliefs. Highlighting individual panels and their often overlooked details, these images capture the majesty of Assyrian kings, their splendid courts, and protecting divinities. An introduction by Collins sets the sculptures in their cultural and art historical context, while the following chapters provide a brief history of Assyria and its royal palaces as well as an overview of the artworks' discovery, reception, and understanding.

The "Red Book" presents a background to conventional foundation analysis and design. The text is not intended to replace the much more comprehensive 'standard' textbooks, but rather to support and augment these in a few important areas, supplying methods applicable to practical cases handled daily by practising engineers and providing the basic soil mechanics background to those methods. It concentrates on the static design for stationary foundation conditions. Although the topic is far from exhaustively treated, it does intend to present most of the basic material needed for a practising engineer involved in routine geotechnical design, as well as provide the tools for an engineering student to approach and solve common geotechnical design problems.

The Flaming Cow offers a rare insight into the brilliant but often fraught collaboration between Pink Floyd and composer Ron Geesin, the result of which became known as Atom Heart Mother – the Floyd’s first UK number one album. From the time drummer Nick Mason visited Geesin’s damp basement flat in Notting Hill, to the last game of golf between bassist Roger Waters and Geesin, this book is an unflinching account about how one of Pink Floyd’s most celebrated compositions came to life. Alongside unpublished photographs from the Abbey Road recording sessions (the only ones taken) and the subsequent performances in London and Paris, Geesin goes on to describe how the title was chosen, why he was not credited on the record, how he left Hyde Park in tears, and why the group did not much like the work. The Flaming Cow rose again, firstly in France, then in London in 2008. After 40 years Atom Heart Mother remains a much-loved record, and The Flaming Cow explores its new-found cult status that has led to it being studied for the French Baccalauréat.

Andrew Marttila has been a professional animal photographer for the past five years and most of that time has been dedicated to photographing cats exclusively. With his set-up he's able to capture wonderful split-second images of cat's most abandoned expressions as they enjoy every cat's favourite treat, catnip. Andrew rescues and raises orphan kittens with his partner Hannah Shaw (the internet's famous Kitten Lady), and many of the models were hand-raised by Andrew and Hannah from newborns. Catnip, or *Nepeta cataria*, grows wild in many parts of the world and is extremely easy to grow at home in most climates. It's part of the mint family and contained within the bulbs, stems, and leaves is an oil called nepetalactone. Once eaten, rolled on, or crushed, the oil binds to the cat's nasal receptors and stimulates a response that affects a number of areas in the brain, including the hypothalamus and amygdala, two regions that are key in regulating emotional and behavioral responses to stimuli. This produces a mild euphoric effect and typically lasts about ten to twenty minutes. Catnip is non-addictive and harmless and provides a temporary respite from your cat's gruelling workload of napping all day.
