Archangel Oracle Cards

Intended as an introduction and initiation to a worldwide fascination, this experiential tool draws its conclusions from the careful scrutiny of thousands of digital photographs containing orbs -

visible proof of the presence of angels in the form of ghostly spheres. The book answers technical questions and offers practical guidance, such as who the orbs are, what purpose they serve, and how they can help. The dozens of full-color photos included within allow the orbs to enlighten and transform lives with their specific energies as well as provide tools for confidence, love, empowerment, hope, and spiritual expansion. Seekers will find the orbs especially enlightening, whether they are looking to make simple connections to angels and other spirit guides or ultimately to accelerate their own spiritual ascension.

The Archangel Guide to the Animal World

The awakening begins in an ascending consciousness with an unspecified dissatisfaction regarding the established rules and assumptions. You cannot identify the irritation, but it feels as if there should be something more. Because of this, you begin to look for answers outside of the normal channels and your awakening commences. The messages for awakening are as diverse as their sources because they are designed to reach different levels of consciousness—yet the truth is always the truth, though the form it takes may vary. Expansion for Ascending Consciousness is a cooperative effort to provide a basis for understanding consciousness and the energy construct we exist within. The intent is to remove the mysticism surrounding consciousness and embodied experience. While complex and miraculous in its design, consciousness is scientifically explainable and the foundation upon which the universe has been created. As an ascending collective, you have reached a time in your development where mysticism has outlived its usefulness. Truth comes in many forms, and thus the

information you gravitate to at any given moment is dependent upon what resonates with your current level of awakening. At a point in this process you will look back upon the information you have accumulated and see that each one was a step that incrementally raised your awareness. Expansion for Ascending Consciousness contains the next step along this path of ascension.

From Here to Ascension

"The Path to Your Ascension will empower you to focus on what's really important in life. It will help you rediscover what your soul has known from the beginning—that life does have a higher purpose. And that each encounter along the way, no matter how difficult, is a stepping-stone that will lead you back to your source. The world's religions have singled out great masters who have walked the earth and "ascended" to God. Elijah was swept up into heaven in a chariot of fire. Gautama Buddha entered Parinirvana. Jesus ascended to the Father, and Mary was assumed into heaven. These masters were not exceptions to the rule. They were teachers, mentors, examples. They came to show us how we, too, can master the circumstances of our life and walk the path home to God. The Path to Your Ascension shapes the wisdom of these ascended masters into a personal guide for your own soul's liberation. It offers practical techniques to accelerate your spiritual growth and describes the angels and masters who can help you achieve your goal. In down-to-earth terms, sprinkled with touching anecdotes, it reveals your greatest opportunities for spirituality and the most serious challenges to making it all the way home. "

The Wonder of Unicorns

Extra energies from heaven have been directed to planet Earth to help her and her people move into the fifth dimension. We are being watched over by trillions of ships, because this is the only time a planet has been allowed to ascend with her people on her. Without the help of those extraterrestrials, we would have never made it through the 1990s. I have known for years that I cannot get off this planet until I have written this book. It is a book for people who have asked the questions, "How did this beloved country of ours get into a mess like this," and, "What can I do to help?" The answer lies in Ho'oponopono, the ancient Hawaiian/Lemurian response of love, compassion, forgiveness, and gratitude.

The Magic of Unicorns

In a reality where magic exists yet science reigns supreme, there are the guardians--the presiders of the universe. All but destroyed centuries ago by the god of chaos, the remaining few now scour the cosmos in search of mortals capable of wielding aether; they are the ones likely to ascend into new guardians and restore order. On Earth, they found five. Young Seldin and his friends have no clue of what's soon to become of them, for no human has ascended in half a millennium. However, the universe is unforgiving, and in the guardians' absence chaos has spread with warlike races eager to assert their dominance. The Pulsari is one such race, and they too have their sights set on Earth.
