cream paper for black and white book interiors that is made from 30% post-consumer waste recycled material. We also maintain a commitment to recycling waste materials resulting from the printing process and from daily office operations, and we will continue to review our practices to ensure we are doing our part to protect the environment." All of our products are made in the country where the order is placed and delivered - including U.S.A., Japan, Britain, Germany, Spain, France and Italy! Less pollution - while supporting local economies. We do not use real leather or metal, but we do appreciate their aesthetics - you will find that the dark strip printed on the side of most notebooks mimics leather pattern so that you may enjoy the look without harming animals. Hard, plastic, leather or synthetic covers put unnecessary strain on the environment as they may increase excess waste and take centuries to decay - long after you are done using the product. Our covers are all sturdy paperbacks with a layer of protective surface that reduce pollution and are easily recycled. "As a paper products company that also prints books for children we cannot compromise on these distinctive features as we work to preserve the planet for future generations." - CEO, Krisp. We hope that you will consider our efforts to protect the environment and join our message. Krisp Notebooks, Planners, Journals and Coloring Books are popular gifts for Christmas, Anniversaries, Special Occasions and Birthdays.
