Life's Leadership Lessons

Samuel experienced defining moments in his life as God shaped him to be His chosen servant. Now readers can learn to take a spiritual inventory of their own lives and define clearly those moments, often during times of turmoil and crisis, that God is guiding them. Those divine moments are so incredibly different than the ordinary times that they capture our attention and lead us in our relationships with God, ministry, or life itself. In the Chosen to Be God's Prophet Workbook, Dr. Blackaby leads us through Samuel's journey and inspires us to make adjustments in our own lives.

Brianna has longed for a life with more meaning and more purpose. What truly makes her soul come alive is music, but her life is full of laundry and dishes. One night her life is ripped apart by a fire in her village. With no family, no home, and no food, she must learn to survive on her own. But deep in her soul, anger is kindled against the Holy One for bringing so much pain into her life. Brianna sets off on an adventure that will ultimately bring her to the Hall of Minstrels, the heart of music in the kingdom, but all she ends up with is a pile of laundry and a stack of dishes. When life seems to have reached its dullest point and nothing really matters anymore, then the Holy One may pour destiny on our souls and overflow our lives with purpose and love. Then we realize that we don't have to know all of the answers to all of the questions, to know that the Holy One cares for us.

The Leader You Want to Be

Put your flawed foot forward. Pick up most leadership books and you'll find strategies for leveraging your power and minimizing your areas of weakness. But think about the leaders whose names have gone down in history. Most of them were so messed up that, if they were looking for work today, no executive placement service would give them the time of day. God's criteria for choosing leaders runs counter to the conventional wisdom. Our culture equates strength with effectiveness, but God favors leaders who know the value of brokenness. In *Leading With a Limp*, you'll discover what makes flawed leaders so successful. They're not preoccupied with protecting their image, they are undaunted by chaos and complexity, they are ready to risk failure in moving an organization from what is to what should be. God chooses leaders who aren't deceived by the myths of power and control, but who realize that God's power is found in brokenness. If you are a leader—or if you have been making excuses to avoid leading—find out how you can take full advantage of your weakness. A limping leader is the person God uses to accomplish amazing things. To go deeper, check out the *Leading With a Limp Workbook*.

Saint's Progress

Based on Mark Mittelberg's book *Choosing Your Faith*, this eight-lesson workbook and DVD will revolutionize the way Christians engage others in spiritual conversations. Many Christians cringe at the thought of talking with non-Christians about faith. But one important thing any Christian can do is understand their friends listen to them and consider how they think. Then it becomes possible to truly communicate God's truth. The eight-lesson Faith Pathworkbook is designed to be used in a group with the Faith PathDVD, and builds on Mittelberg's sensible, evenhanded approach to evangelism. DVD segments include teaching from Mittelberg, as well as short interviews with fascinating people talking about the faith paths they were on before they came to Christ. Approaches such as relativism, traditionalism, mysticism, authoritarianism, and others are explored. Interviews seen on the DVD are then discussed in a thought-provoking, enjoyable group format, as well as in workbook entries.

There are over 20,000 species of edible plants in the world yet fewer than 20 species now provide 90% of our food. However, there are hundreds of less well-known edible plants from all around the world that are both delicious and nutritious. It is our belief that plants can provide people with the majority of their needs, in a way that cares for the planet's health. A wide range of plants can be grown to produce all our food needs and many other commodities, whilst also providing a diversity of habitats for our native flora and fauna. This book describes and provides advice on growing some of the lesser known and unusual edible plants, with an emphasis on perennials. Information includes: Alternative Fruits and Root Crops, Edible Leaves, Edible Flowers, Winter Salads, Staple Seed Crops and Useful Weeds.

Great by Choice

This book is an invitation to join the Common Good Nation. It is time to create a parallel nation based on a more mature worldview. Also, where anyone on Earth can easily join or leave it at any time because it is defined by agreement rather than geography. It is also time to create a more mature form of democracy. The geographically defined nations provide us the possibility of creating in the private sector a nation defined by agreement that can eventually become more important to people while they continue to be fully responsible as citizens of both. It is not 1776. It is 2017. Our human societies have matured. It is time to honor this maturation by providing the opportunity for people to join a nation that is based on our current level of human maturity. The Common Good Nation (CGN) you will herein be invited to join will be loved by the geographically nations. They will accurately view it as a free research and development program. Whatever it creates that works well can be copied or, if deemed best left in the private sector, supported with tax incentives. The CGN is based on people choosing their leaders from within groups of less than one hundred people where everyone knows everyone well. This puts an end to millions of people going to polls to choose between two people to be the President of their country where almost none know both well. It also ends campaign fundraising, marketing tricks, fake news, and all the other troubles with choosing leaders that way. It is also very difficult to reach a majority decision on an issue where the worldviews of the citizenry are all over the map. This is the result of primarily defining a nation by the land it occupies. More quick and wise decisions can be made when all the people in the nation share a particular worldview. The CGN described in this book is based on a particular worldview. Only those who share it will join. It will also use a more mature democratic process briefly described above. There is no taxation: except for a small annual fee to confirm a person as a citizen for the following year, all expenses are paid for with fees or donations. If you share its worldview and want to explore its use of a more mature form of democracy, we invite you to read this book and consider joining with us to create the CGN. You can do so by going to our website: www.commongoodnation.org.

More productivity. Less drama. It all starts with a healthy conflict culture. In the modern workplace, conflict has become a dirty word. After all, conflict is antithetical to teamwork, employee engagement, and a positive company culture. Or is it? The truth is that our teams and organizations require conflict to get things done. But we avoid conflict and build up conflict debt by deferring and dodging the difficult decisions. Our organizations are paying the price--becoming less productive, less innovative, and less competitive. Individuals are paying, too--suffering from overwhelming workloads, endless drama, and sleepless nights. In *The Good Fight*, Liane Davey shows you how to create the productive conflict your organization needs to get along and get stuff done. Drawing on her twenty-year career as an advisor to the C-Suite, Davey shares real-world examples and practical tools you and your team can use to handle even the most contentious conflicts as

The Heart of Leadership

In her #1 New York Times bestsellers, Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of skills and practices that are 100 percent teachable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read *Daring Greatly* and *Rising Strong* or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership.

Chosen to Be God's Prophet Workbook

Are you the type of leader people want to follow? You can be—but first, you've got to understand what sets great leaders apart from all the rest. Certainly, leaders need people skills, execution skills, a deep knowledge of industry trends, the ability to articulate a vision, and more—they must be competent—but that's just the tip of the iceberg. What's below the waterline? What's deep inside the best leaders that makes them different? Mark Miller contends it is their leadership character. In his latest enlightening and entertaining business fable, he describes the five unique character traits exhibited by exceptional leaders and how to cultivate them. The Heart of Leadership begins with young and ambitious Blake Brown being passed over for a desperately wanted promotion, despite an outstanding individual performance. Confused and frustrated, he turns to his former mentor, Debbie Brewster. Rather than attempting to solve Blake's problem for him, she sends him on a quest to meet with five of his late father's colleagues, each of whom holds a piece of the puzzle he's trying to solve. As Blake puts the pieces together, he discovers that in the final analysis, a lack of skills isn't what holds most leaders back; skills are too easy to learn. Without demonstrated leadership character, however, a skill set will never be enough. Most often, when leaders fail to reach their full potential, it is an issue of the heart. This is Blake's ultimate revelation. This book shows us that leadership needn't be the purview of the few—it is within reach for millions around the world. The Heart of Leadership is a road map for every person who desires to make a difference in the lives of others and become a leader people want to follow.

And that claim is backed up by new research from MacArthur Fellowship Award winner and University of Pennsylvania psychologist Angela Duckworth, among others. Not everyone is blessed with exceptional intelligence or wins the gene lottery. But the good news is that you can excel beyond your wildest dreams in your career and your personal life—success is within your grasp—through the right attitude and determination. The authors personally know of what they are writing about. They grew up in the Bronx, with no money or connections. But through dint of hard work and perseverance, they rose to the top of the advertising world, as CEO and president, respectively, of the Kaplan Thaler Group and Publicis USA, creating and orchestrating world-famous advertising campaigns such as the Aflac duck and Clairol Herbal Essence. In their meetings with executives from around the world, they have seen firsthand the power of grit in helping women and men

advance in their careers. In *Grit to Great*, they offer a rich narrative from the front lines of business on the impact determination, hard work, and focused attention have on getting ahead, whether you are an entry-level new hire or a seasoned veteran eager to advance your career. Written in the same entertaining and compelling fashion that made *The Power of Nicea* national bestseller, they offer a wealth of strategies and research on how to turn potential into performance, and how to compete-and win-against anyone, no matter how smart or connected they may be. *Grit to Great* is the perfect gift for any friend, employee, or graduating student about to enter the job market. It turns out there is a secret to success-and it's one each and every one of us has complete control over. This book shows you how to really get ahead. So, let's get to work.

more, yet feel you just can't add another thing to your plate without being overwhelmed by stress or compromising your health, relationships, and integrity? No doubt, as a leader, there are some days when you feel the flow. You're able to make a difference and achieve big goals. You feel confident and energized. On days like this, you are your best self--the leader you want to be. But on other days, you go down a different, negative path, with pressures and doubts making you feel like a lesser version of yourself. How can you be the leader you want to be, every day? The answer is more than a time-management system or a silver-bullet solution for changing your routines. Leadership expert and coach Amy Jen Su's powerful new book helps readers discover that the answer lies within. By focusing in specific ways on five key leadership elements--Purpose, Process, People, Presence, and Peace--you can increase your time, capacity, energy, and ultimately your impact, with less stress and more equanimity. Drawing on rich and instructive stories of clients, leaders, artists, and athletes, as well as on research by experts, the author brings together the best of both Western management thinking and Eastern philosophy to provide a holistic yet hands-on approach. *The Leader You Want to Be* is your indispensable guide to tapping into and expanding your leadership capacity so that you can be your best, sustain yourself, and thrive as a leader.

Solitary Harp

At the most basic level, a leader is someone who leads others. But what makes someone a leader? What is it about being a leader that some people understand and use to their advantage? What can you do to be a leader? It is not enough to just have a vision. Lots of people see things that should be done, things that should be fixed, great steps forward but they don't act. What makes leaders different is that they act. They take the steps to make their dream a reality. There are things that set leaders apart from other people. Some people are born with these characteristics while others develop them as they improve as leaders. This workbook explains the various ways you can work on yourself to develop the leader in you
