'THE MAGIC LIVES INSIDE EVERY ONE OF US - DESPITE OUR ENVIRONMENT, OUR STRUGGLES AND OUR DOUBTS' CATHY FREEMAN

## **The Soul of a Butterfly**

You were born to lead. Now it's time to become a leader. Leaders may be found in boardrooms, but they may also be found in families, schools, and organizations of all kinds—anywhere people interact, nurture, create, or build. Contrary to popular opinion, leadership is not meant for an elite group of people who, by fate or accident, become leaders while everyone else is consigned to being a lifelong follower. After personally training thousands of leaders from around the world, best-selling author Dr. Myles Munroe reports that while every person possesses the potential of leadership, many do not understand how to cultivate the leadership nature and how to apply it to their lives. In *The Spirit of Leadership*, Dr. Munroe defines the unique attitudes that all effective leaders exhibit, explains how to eliminate hindrances to your leadership abilities, and helps you to fulfill your particular calling in life. "a defining portrait of true and effective leadership. On these pages you will discover your purpose, your passion, and your potential to become the leader God has destined you to be." —Pastor John Hagee, Cornerstone Church "[Dr Myles Munroe's] wisdom is to the believer what a phone booth was to Superman! Step into every page and be charged!" —Bishop T. D. Jakes, The Potter's House of Dallas "The world is groaning in travail, waiting for the manifestation of those who will rise up as followers of God and leaders of men. Dr. Myles Munroe will give you invaluable insight in your quest to discover and develop the spirit of a leader." —Pastor Rod Parsley, World Harvest Church "Are you aware that God has ordained you to be a leader? In *The Spirit of Leadership*, Dr. Myles Munroe gives us the key to find the hidden leader within ourselves. I highly

recommend this inspired book to all." —Paul F. Crouch, Trinity Broadcasting Network "In The Spirit of Leadership, Dr. Myles Munroe taps into the core truths of authentic, successful leadership. Through decades of study and careful observation, Dr. Munroe has identified the key—the missing ingredient that activates the potential to lead found within every human being." —Marilyn Hickey, Marilyn Hickey Ministries

### **If My Mind Can Conceive It, If My Heart Can Believe It--then I Can Achieve It.**

AUTHORISED BY THE NAPOLEON HILL FOUNDATION  
Your Keys to Personal Achievement A PERSON WITH A PURPOSE AND A PLAN IS UNDEFEATABLE! In his book Conceive it! Believe it! Achieve it! Napoleon Hill urges you to try and concentrate on accepting the possible within the impossible. By directing your mind toward a goal, you determine your ultimate destiny. Simple truths hold profound wisdom but even so, it does not mean that they are easy to understand. The 52 essays recounted in this book give you all the information you need to achieve success. It is only when you really believe in the true power of your dreams that you find the courage to realise them. Napoleon Hill, born in a one-room cabin in Wise County, Virginia, had a long and successful career writing, teaching, and lecturing about the principles of success. His work is a monument to individual achievement, the cornerstone of modern motivation. The Napoleon Hill Foundation is a non-profit educational institution perpetuating his philosophy of leadership and self-motivation.

### **The Power of Positive Thinking**

SUNDAY TIMES BESTSELLER Some people are born to be a certain thing. And I was a born fighter. At the age of eight, Michael

Bisping began his training in martial arts. By the time he was 15, he was fighting in his first no holds barred competition. When he turned professional and joined the UFC he was sure about one thing: only a world championship title would do. A British underdog in the greatest fighting championship on earth, he spent the next decade winning some of the championship's most sensational contests to achieve his dream, becoming the first ever British UFC world champion in 2016. From his boyhood years learning to fight in the gyms of Lancashire to his most shocking clashes in the cage, in *Quitters Never Win* Bisping tells the raw and unfiltered story behind his legendary career for the first time, including his greatest wins, his fiercest rivals and the harrowing injury that forced him into retirement. As audacious, entertaining and as candid as the man himself, it's a backstage pass to one of the world's most extreme sports and an unbridled account of what it really takes to become a champion, from sleeping in his own car to reaching the summit of the world's fastest growing sport.

### **Conceive it! Believe It! Achieve it!**

INTERNATIONAL BESTSELLER • The happy secret to greater success and fulfillment in work and life—a must-read for everyone trying to flourish in a world of increasing stress and negativity “Thoughtfully lays out the steps to increasing workplace positivity.”—Forbes In the book that inspired one of the most popular TED Talks of all time, New York Times bestselling author Shawn Achor reveals how rewiring our brain for happiness helps us achieve more in our careers and our relationships and as students, leaders, and parents. Conventional wisdom holds that once we succeed, we'll be happy; that once we get that great job, win that next promotion, lose those five pounds, happiness will follow. But the science reveals this formula to be backward: Happiness fuels success, not the other way around. Research shows that happy

employees are more productive, more creative, and better problem solvers than their unhappy peers. And positive people are significantly healthier and less stressed and enjoy deeper social interaction than the less positive people around them. Drawing on his original research—including one of the largest studies of happiness ever conducted—and work in boardrooms and classrooms across forty-two countries, Achor shows us how to rewire our brains for positivity and optimism to reap the happiness advantage in our lives, our careers, and even our health. His strategies include:

- The Tetris Effect: how to retrain our brains to spot patterns of possibility so we can see and seize opportunities all around us
- Social Investment: how to earn the dividends of a strong social support network
- The Ripple Effect: how to spread positive change within our teams, companies, and families

By turns fascinating, hopeful, and timely, *The Happiness Advantage* reveals how small shifts in our mind-set and habits can produce big gains at work, at home, and elsewhere.

### **Just Believe**

A wide-ranging argument by a renowned anthropologist that the capacity to believe is what makes us human. Why are so many humans religious? Why do we daydream, imagine, and hope? Philosophers, theologians, social scientists, and historians have offered explanations for centuries, but their accounts often ignore or even avoid human evolution. Evolutionary scientists answer with proposals for why ritual, religion, and faith make sense as adaptations to past challenges or as by-products of our hyper-complex cognitive capacities. But what if the focus on religion is too narrow? Renowned anthropologist Agustín Fuentes argues that the capacity to be religious is actually a small part of a larger and deeper human capacity to believe. Why believe in religion, economics, love? A fascinating intervention into some of the most

common misconceptions about human nature, this book employs evolutionary, neurobiological, and anthropological evidence to argue that belief—the ability to commit passionately and wholeheartedly to an idea—is central to the human way of being in the world.

### **Conceive Believe Achieve**

Aristotle's "Politics" is the best work ever written on the concepts that help shape countries of the world and their governments. Although he strongly supports the out-dated institution of slavery, his views on constitution and running of government are classical. Though he discusses Greek city-states and institutions of that era, his work forms the basis of modern-day political science.

### **Building Equity**

A PBS Great American Read Top 100 Pick With extraordinary relevance and renewed popularity, George Orwell's 1984 takes on new life in this edition. "Orwell saw, to his credit, that the act of falsifying reality is only secondarily a way of changing perceptions. It is, above all, a way of asserting power."—The New Yorker In 1984, London is a grim city in the totalitarian state of Oceania where Big Brother is always watching you and the Thought Police can practically read your mind. Winston Smith is a man in grave danger for the simple reason that his memory still functions. Drawn into a forbidden love affair, Winston finds the courage to join a secret revolutionary organization called The Brotherhood, dedicated to the destruction of the Party. Together with his beloved Julia, he hazards his life in a deadly match against the powers that be. Lionel Trilling said of Orwell's masterpiece, "1984 is a profound, terrifying, and wholly fascinating book. It is a fantasy of the political future, and like any such fantasy, serves its author as a

magnifying device for an examination of the present.” Though the year 1984 now exists in the past, Orwell’s novel remains an urgent call for the individual willing to speak truth to power.

### **Create Your Own Fate**

AMERICAN SUCCESS STORY Told in his own voice, this is the story of a remarkable man who, despite the tragedy of his family's past, is by nature an eternal optimist. His is an American success story. It is also a story of love and remembrance, and, perhaps most importantly, a plea to future generations to "never forget."

### **The 48 Laws of Power**

Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control – from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

Nothing is "Beyond Belief" Imagination is the key to creating a new reality! Whatever you can imagine, you can implement. Whatever you believe to be actually creates the world you see. Life doesn't just happen to you. It "responds" to you and the thoughts that you are creating on a continuing basis. Although thoughts are not tangible, they are programmable and powerful. Thoughts can transform the abstract into the absolute. This book is about creative visualization or "wishcraft" which is a way of thinking that can change your life. The principles proposed in this book can propel you from poverty to prosperity and jumpstart your JOY as you learn how to transform your thoughts into reality. The process starts with a dream, a desire, or even just a wish. Wishes come in all sizes. One can wish small or one can wish "big or tall." One can even choose not to wish at all, but wishing is really the key to creating a new reality. Everything that you can conceive of already exists or you couldn't even conceive of it. Creative visualization simply makes the invisible visible! Your beliefs are the key to making the invisible materialize. Predicting the future actually becomes possible once you realize that you can create your own future by propelling your dreams into reality. The world can be yours to have and to hold once you take control of your own destiny. That doesn't mean that you can control the events that will happen in your life, but you can control how you envision those events. Those visualizations can either empower you to excel or cripple you in crisis. If you want your life to change, try doing something strange. If you want your life to be different, do different, think different. Sometimes all that you need to change is your mind and your beliefs! Stop setting limits on your life! Become part of the cycle of

life which is to Dream, desire, create and inspire

## **30 Days to Taming Your Tongue**

For every man there is a moment in life when he wants to give up. For Stanley Walters it was when he lost his son in a tragic accident. From that moment on he was trapped in a downward spiral of depression. Then he met a very special man named Charles who brought with him a very special message that he said has been passed down for thousands of years. This simple message changed Stanley's life forever. From Charles he learned what it truly means to succeed in every area of life. You can learn this too as you join Stanley as he relives this very exciting journey from despair to triumph. Contained within this book is his journey and each lesson he learned that brought him one step closer to a life he given up in believing was possible. Will you join him? You can, if you Just Believe.

## **My Journal of Big Ideas**

A brilliant inquiry into the origins of human nature. "Sweeping, erudite, sharply argued, and fun to read..also highly persuasive." -Time Now updated with a new afterword One of the world's leading experts on language and the mind explores the idea of human nature and its moral, emotional, and political colorings. With characteristic wit, lucidity, and insight, Pinker argues that the dogma that the mind has no innate traits—a doctrine held by many intellectuals during the past century—denies our common humanity and our individual preferences, replaces objective analyses of social problems with feel-good slogans, and distorts our understanding of politics, violence, parenting, and the arts. Injecting calm and rationality into debates that are notorious for ax-grinding and mud-slinging, Pinker shows the importance of an honest acknowledgment of human nature based on science and common sense.

## **The Making of a Leader**

Imagine a school with a diverse student body where everyone feels safe and valued, and all—regardless of race, culture, home language, sexual orientation, gender identity, academic history, and individual challenges—have the opportunity to succeed with interesting classes, projects, and activities. In this school, teachers notice and meet individual instructional needs and foster a harmonious and supportive environment. All students feel empowered to learn, to grow, and to pursue their dreams. This is the school every student needs and deserves. In *Building Equity*, Dominique Smith, Nancy Frey, Ian Pumpian, and Douglas Fisher, colleagues at San Diego's innovative Health Sciences High & Middle College, introduce the Building Equity Taxonomy, a new model to clarify the structural and interpersonal components of an equitable and excellent

schooling experience, and the Building Equity Review and Audit, survey-based tools to help school and teacher leaders uncover equity-related issues and organize their efforts to achieve • Physical integration • Social-emotional engagement • Opportunity to learn • Instructional excellence • Engaged and inspired learners Built on the authors' own experiences and those of hundreds of educators throughout the United States, this book is filled with examples of policy initiatives and practices that support high-quality, inclusive learning experiences and deliver education that meets critical standards of equality and equity.

Scaling a business is not for the faint of heart. It's a mind-bending journey that causes millions of business owners around the globe to either throw in the towel—or avoid risk entirely and suffer from smallness and mediocrity. Most of these businesses fail because they are ill prepared to face the real challenges involved in scaling. Either they don't have the bandwidth to keep up with the sales demand or production, miss out on major opportunities due to fear, or keep making the same mistakes over and over because systems and processes aren't in sync with the rate of growth. To truly scale, you must upsize your strategic practices, implement new marketing strategies, find new ways to build your team, and expand your mindset to break through whatever is keeping you stuck at the same level. Then you must be willing to take the leap into the giant unknown – to make your impossible possible. In *Scale or Fail*, author Allison Maslan—who has successfully scaled ten companies from scratch and has guided thousands of small businesses to do the same—shares her revolutionary SCALEit Method ® for successfully growing, replicating, and expanding your business. She also shares pivotal mindset strategies she's used to break the fear barrier as a trapeze artist so you can move past any obstacle, take strategic Big Picture risks, and fulfill your dreams of business expansion and skyrocketing profit. Featuring a wealth of real-life success stories, visual tools, and exercises that are prescriptive and inspirational,

Scale or Fail offers proven scaling strategies and a proactive approach to: Create your Big Picture Vision and build a plan to achieve it Produce an ever-flowing stream of cash flow with consistent profits Establish a powerhouse team that functions well without you Become a true leader and feel like you deserve your success Improve systems and processes that facilitate scaling Get past the mental and strategic pitfalls that cause revenue bottlenecks Scale or Fail is adaptable to any type of business—manufacturing, consumer goods, a brick and mortar, a digital service, a wholesaler, a consulting service, and everything in between. Whether you're six figures and scaling to seven. . . or in the seven figures and scaling to eight or even nine, Scale or Fail provides the roadmap to multiply your business growth—and empower you to soar in the air with the greatest of ease.

It also features an introduction from personal development authority Tom Butler-Bowdon, plus another Wattles classic, *The Science of Being Great*.

## **Contemporary Bioethics**

This book discusses the common principles of morality and ethics derived from divinely endowed intuitive reason through the creation of al-fitr' a (nature) and human intellect (al-'aql). Biomedical topics

are presented and ethical issues related to topics such as genetic testing, assisted reproduction and organ transplantation are discussed. Whereas these natural sources are God's special gifts to human beings, God's revelation as given to the prophets is the supernatural source of divine guidance through which human communities have been guided at all times through history. The second part of the book concentrates on the objectives of Islamic religious practice – the maqa' sid – which include: Preservation of Faith, Preservation of Life, Preservation of Mind (intellect and reason), Preservation of Progeny (al-nasl) and Preservation of Property. Lastly, the third part of the book discusses selected topical issues, including abortion, assisted reproduction devices, genetics, organ transplantation, brain death and end-of-life aspects. For each topic, the current medical evidence is followed by a detailed discussion of the ethical issues involved.

### **The Power of The Tongue**

Words have played a vital role since the beginning of time. In the book of Genesis, God created the world and everything in it with His words. Today, as believers, we have the same God-like ability to speak those things which be not as though they were. Through God's Word, Kenneth Copeland reveals the Bible secret of words and the vital importance of using the tongue to create rather than destroy.

**1984**

A path to educational justice for all students - one that encourages teachers, parents, and their communities to adopt the rebellious spirit and bold and creative methods of abolitionists Educator Bettina Love argues that the U.S educational system is maintained by and profits from the suffering of children of color. Reformers

offer survival tactics in the forms of test-taking skills, acronyms, grit labs, and character education which she calls the Education Survival Complex. To dismantle the educational survival complex and to achieve educational freedom--not reform--educators, parents, and community leaders must approach education through the imagination, determination, boldness and urgency of an abolitionist. Drawing on her experiences as a student and teacher, Love highlights young community leaders, artists and activists who are advocating for social change and inclusion. She persuasively argues that educators must teach students about racial violence, oppression, and how to make sustainable change in their communities through radical civic initiatives and movements. She concludes by showing how young leaders are expanding our ideas of civic engagement and intersectional justice by using the playbook of abolitionists like Ella Barker, Bayard Rustin, and Fannie Lou Hamer.

### **The Spirit of Leadership**

After 1989, capitalism has successfully presented itself as the only realistic political-economic system - a situation that the bank crisis of 2008, far from ending, actually compounded. The book analyses the development and principal features of this capitalist realism as a lived ideological framework. Using examples from politics, films, fiction, work and education, it argues that capitalist realism colours all areas of contemporary experience. But it will also show that, because of a number of inconsistencies and glitches internal to the capitalist reality program capitalism in fact is anything but realistic.

## Success Habits

Former boxing legend Muhammad Ali, one of the best-known and best-loved celebrities and an international good-will ambassador, offers inspiration and hope as he describes the spiritual philosophy that sustains him. "During my boxing career, you did not see the real Muhammad Ali. You just saw a little boxing. You saw only a part of me. After I retired from boxing my true work began. I have embarked on a journey of love." So Muhammad Ali begins this spiritual memoir, his description of the values that have shaped and sustained him and that continue to guide his life. In *The Soul of a Butterfly* the great champion takes readers on a spiritual journey through the seasons of life, from childhood to the present, and shares the beliefs that have served him well. After fighting some of the fiercest bouts in boxing history against Joe Frazier and George Foreman, today Muhammad Ali faces his most powerful foe—outside the boxing ring. Like many people, he battles an illness that limits his physical abilities, but as he says, "I have gained more than I have lost. I have never had a more powerful voice than I have now." Ali reflects on his faith in God and the strength it gave him during his greatest challenge, when he lost the prime years of his boxing career because he would not compromise his beliefs. He describes how his study of true Islam has helped him accept the changes in his life and has brought him to a greater awareness of life's true purpose. As a United Nations "Messenger of Peace," he has traveled widely, and he describes his 2002 mission to Afghanistan to heighten public awareness of that country's desperate situation, as well as his more recent meeting with the Dalai Lama. Ali's reflections on topics ranging from moral courage to belief in God to respect for those who differ from us will inspire and enlighten all who read them. Written with the assistance of his

daughter Hana, *The Soul of a Butterfly* is a compassionate and heartfelt book that will provide comfort for our troubled times.

## **Quitters Never Win**

If my mind can conceive it, if my heart can believe it--then I can achieve it."- Muhammad Ali

## **Why We Believe**

Think of it! Think of the people who drift aimlessly through life, dissatisfied, struggling against a great many things, but without a clear-cut goal. Can you state, right now, what it is that you want out of life? Fixing your goals may not be easy. It may even involve some painful self-examination. But it will be worth whatever effort it costs, because as soon as you can name your goal, you can expect to enjoy many advantages. With contemporary commentary by Judith Williamson, the director of the Napoleon Hill World Learning Center, *Napoleon Hill's Keys to Personal Achievement* will provide you with:

- Alert imagination
- Contagious enthusiasm
- Greater initiative
- Increased self-reliance
- A new world-view
- A larger vision
- Decreased problems
- Magnetic personality
- Higher hopes and ambitions

Try it and see. Think of change as growth. You are the one who holds the key to your success. Nothing holds you back except yourself. Get out of your own way, and move forward. You can do it if you believe you can!
