ADMINISTRATION OF PROGRAMS FOR YOUNG CHILDREN is a tried and true guide for early childhood education students who want to be directors, and a comprehensive resource for those who are already directors. The text emphasizes the role of leaders/managers and their function in relation to new staff, while simultaneously addressing the needs of children, parents, and other staff. Comprehensive coverage includes a wide variety of information about relevant program elements as well as methods and principles related to supervising student teachers, assistant teachers, teachers, parents, and volunteers. Real-life scenarios equip working directors with problem-solving techniques; readers also learn best practices in child care program management. Highlights of the Eighth Edition include a fresh new design, a new chapter on family child care, up-to-date technology information, and a new section on managing aggressive or violent children. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Cribsheet meets *The Sh!t No One Tells You* in this no-holds-barred, judgment-free parenting guide that sets the record straight on every hot-button parenting topic by longtime journalist and founder of the viral #NoShameParenting movement. What if you could do more for your kids, by doing a whole lot less? Parenting today has become a competitive sport, and it seems that everyone is losing. From the very moment that little line turns blue, parents-to-be find themselves in a brave new world where every decision they make is fraught, every action they take is judged, and everything they do seems to be the wrong thing. Formula feed? Breast is best. Breastfeed in public? That's indecent. Cry it out? You're causing permanent harm to your child. Don't sleep train? Your child will never learn to sleep on his or her own. Stay home? You're setting a bad example for your kids. Go back to work? Don't you love your kids more than your job? Lindsay Powers—former editor-in-chief of Yahoo! Parenting, creator of the #NoShameParenting movement, and mom of two—is here to help parents everywhere breathe a collective sigh of relief. This laugh-out-loud funny, accessible, and reassuring book sets the record straight on all of the insane conflicts that parents face—from having a glass of wine while pregnant to sleep training, childcare, feeding, and even sex after baby. Drawing on the latest research and delivered in a relatable, comforting voice, *You Can't F*ck Up Your Kids* demonstrates that it is possible to take the stress out of parenting and sit back and enjoy the ride.

Parenting Matters

Filled with information to effectively market a family child care program and maximize enrollment and income, Family Child Care Marketing Guide provides dozens of marketing tips and inexpensive ideas. This second edition includes two new chapters detailing the use of technology and social media as marketing tools.

Basis of Assets

"From adjusted gross income to zoning and property taxes, the second edition of The Encyclopedia of Taxation and Tax Policy offers the best and most complete guide to taxes and tax-related issues. More than 150 tax practitioners and administrators, policymakers, and academics have contributed. The result is a unique and authoritative reference that examines virtually all tax instruments used by governments (individual income, corporate income, sales and value-added, property, estate and gift, franchise, poll, and many variants of these taxes), as well as characteristics of a good tax system, budgetary issues, and many current federal, state, local, and international tax policy issues. The new edition has been completely revised, with 40 new topics and 200 articles reflecting six years of legislative changes. Each essay provides the generalist with a quick and reliable introduction to many topics but also gives tax specialists the benefit of other experts' best thinking, in a manner that makes the complex understandable. Reference lists point the reader to additional sources of information for each

Family Child Care Environment Rating Scale (FCCERS-3)

Children are the foundation of the United States, and supporting them is a key component of building a successful future. However, millions of children face health inequities that compromise their development, well-being, and long-term outcomes, despite substantial scientific evidence about how those adversities contribute to poor health. Advancements in neurobiological and socio-behavioral science show that critical biological systems develop in the prenatal through early childhood periods, and neurobiological development is extremely responsive to environmental influences during these stages. Consequently, social, economic, cultural, and environmental factors significantly affect a child's health ecosystem and ability to thrive throughout adulthood. Vibrant and Healthy Kids: Aligning Science, Practice, and Policy to Advance Health Equity builds upon and updates research from Communities in Action: Pathways to Health Equity (2017) and From Neurons to Neighborhoods: The Science of Early Childhood Development (2000). This report provides a brief overview of stressors that affect childhood development and health, a framework for applying current brain and development science to the real world, a roadmap for implementing tailored interventions, and recommendations about improving systems to better align with our understanding of the significant impact of health equity.

Family Child Care Business Planning Guide

On November 11, 1919, the citizens of Centralia, Washington, gathered to watch former servicemen, local Boy Scouts, and other community groups march in the Armistice Day parade. When the marchers swung past the meeting hall of the Industrial Workers of the World, a group of veterans broke ranks, charged the hall, and were met by gunshots. Before the day was over, four of the marchers were dead and one of the Wobblies had been lynched by the mob. Through a wealth of newly available primary source material including previously sealed court documents, FBI records released under the Freedom of Information Act, and interviews with surviving witnesses, Tom Copeland has pieced together the events of that day and has traced the fate of the men who were accused and convicted of murdering the marchers. Copeland focuses on Elmer Smith, the local attorney who advised the Wobblies that they had the right to defend their hall against an anticipated attack. Although he never belonged to the IWW, Smith sympathized with their interests, championing the rights of working people, and

speaking on their behalf. He was originally arrested with the Wobblies and then took up their cause in the courts, beginning a life-long struggle to free the men who were charged with murdering the Centralia marchers. Copeland recounts Smith's disbarment and eventual reinstatement, his run for political office, his speeches throughout the Northwest, and his unyielding support for the workers' cause. This book is a balanced treatment of the Centralia tragedy and its legal repercussions written by a practicing lawyer. It is also a compelling human drama, centering on the marginal life of an industrial frontier labor lawyer, a study of radical politics of the 1920s, and a depiction of conditions of life in the lumber camps and towns. It is thus biography as well as legal, political, and social history.

Child Care Provider

Decades of research have demonstrated that the parent-child dyad and the environment of the family — which includes all primary caregivers — are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy

child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

Family Child Care Mileage-Keeper

For home-based family child care (daycare) providers, taking care of the children is only half of the job. The other half is taking care of the business—tracking expenses, being profitable, filing taxes, and meeting government requirements. This resource covers everything family child care providers need to keep accurate business records. If a family child care provider pays close attention to the recommendations in this book, he or she will be able to claim the maximum allowable deductions and pay the lowest possible federal taxes. Since the previous edition of Family Child Care Record-Keeping Guide, Congress and the IRS have made many changes to tax rules that affect family child care providers. There have been changes in depreciation rules, adjustments to food and mileage rates, and clarifications on how to calculate the Time-Space percentage. Author Tom Copeland has been involved in many IRS audits and represented providers in several Tax Court cases that have also clarified numerous rules. Further necessitating this ninth edition, the IRS issued two significant new rules in 2013. These updates, new rules, and clarifications are detailed in this book; all of the information is applicable to child care providers in every state, regardless of local regulations. Tom Copeland, is a writer, trainer, lawyer, and consultant focusing on family child care business issues. He has conducted record-keeping, tax preparation, and business workshops for family child care providers across the country since 1981.

Figuring depreciation can be the most difficult aspect of filing tax returns for a family child care program. This inventory log for family child care programs is designed to assist in keeping track of the furniture, appliances, and other property used in the child care business; once these items have been identified, they can be deducted as business expenses on income tax forms. The Inventory-Keeper log provides the information needed to claim depreciation deductions for items purchased before the business began and items bought after the business began. The log can also be used for insurance purposes if any items are stolen or destroyed. The log's introduction details the step-by-step procedure for completing the inventory forms, and provides suggestions for determining the fair market value of items; delineates the rules for claiming business expenses on tax returns; and provides other tips for inventory such as maintaining a photograph or videotape record of items. The log next presents detailed, room-by-room listings of potential items, with space available for recording relevant information. A section is included for listing home, home improvements, and land improvements. The log concludes with a sample list of strictly personal items and separate tables for those items. (KB)

development and learning, the authors have revised and updated the widely used Family Child Care Environment Rating Scale®. FCCERS-3 is the next-generation assessment tool for use in home-based child care programs for children from infancy through school age (birth to age 12). FCCERS-3 focuses on the full range of needs of the wide age-range of children often found in family child care programs. Further, the scale assesses both environmental provisions and provider-child interactions that contribute to children's learning and development, including language, cognitive, social-emotional, and physical development, as well as concerns for health and safety. FCCERS-3 is appropriate for state- and district-wide QRIS and continuous quality improvement, for provider self-assessment, and as a learning or monitoring tool within networks of family providers. The established reliability and validity of the scale make it particularly useful for research and program evaluation with family child care programs. While the approach to assessing quality and the scoring process remain the same for the new FCCERS-3, users will find the following improvements informed by extensive use of the FCCERS in the field and by the most recent research: Enhanced focus on interactions and the role of the provider. Six new language and literacy Items. A new Item on math experiences. A new approach to scoring based solely on observation of ongoing program activity (3-hour time sample). The elimination of the Parents and Provider subscale and provider interview, freeing up time for observing more actual programming. Improved indicator scaling, providing more precise and useful scores for use in self-improvement and professional development. Reduced emphasis on the number of materials, along with greater emphasis on how materials are used to encourage learning. Suitable for use in inclusive and culturally diverse programs, FCCERS-3 subscales evaluate: Space and Furnishings Personal Care Routines Language

Inspiring and insightful, *Our Better Angels: Seven Simple Virtues That Will Change Your Life and the World* celebrates the shared principles that unite and enable us to overcome life's challenges together. "When the waters rise, so do our better angels."—President Jimmy Carter Jonathan Reckford, the CEO of Habitat for Humanity, has seen time and again the powerful benefits that arise when people from all walks of life work together to help one another. In this uplifting book, he shares true stories of people involved with Habitat as volunteers and future homeowners who embody seven timeless virtues—kindness, community, empowerment, joy, respect, generosity, and service—and shows how we can all practice these to improve the quality of our own lives as well as those around us. A Vietnam veteran finds peace where he was once engaged in war. An impoverished single mother offers her family's time and energy to enrich their neighbors' lives. to shelter even more. A teenager grieving for his mother honors her love and memory by ensuring other people have a place to call home. A former president of the United States leads by example with a determined work ethic that motivates everyone around him to be the best version of themselves. These stories, and many others, illustrate how virtues become values, how cooperation becomes connection, and how even the smallest act of compassion can encourage actions that transform the world around us. Here are tales that will make readers laugh and cry and embrace with passion the calling of our better angels to change the way we take care of ourselves, our families, our communities, and the world.
