Now in its Third Edition, Financial Accounting by Kimmel, Weygandt, and Kieso has been tested and approved in the classroom. This best-selling text has helped students hit the road with a practical set of tools, and the confidence they need to use those tools effectively in making business decisions. Financial Accounting provides students with an understanding of those concepts that are fundamental to the use of accounting. Starting with a "macro" view of

accounting information, the authors present real financial statements and establish how a financial statement communicates the financing, investing, and operating activities of a business to users of accounting information. They motivate students by grounding the discussion in the real world, showing them the relevance of the topics covered to their future career. The authors identify a finite set of tools necessary to make business decisions based on financial information: The Decision Toolkit. This toolkit is consistently re-introduced throughout the text, logically sequenced to take full advantage of the tools presented in earlier chapters, and summarized in the final chapter. This thorough integration of the use of financial statements for decision-making makes this one of the most user-oriented texts available today. Your professor has selected to enhance your course experience with WileyPLUS, a complete online version of your text combined with a host of study tools. With WileyPLUS, your professor is providing you an online environment that will help you reach your full potential, and experience academic success that will last you a lifetime! You also get immediate feedback on homework problems that are linked to the online text. Track your own Progress A personalized grade book allows you to individually track and monitor your own progress and performance, easily accessible throughout the term.

Financial Accounting: Tools for Business Decision Making 8e All Access Pack

With this 5th edition, readers will acquire a practical set of tools and the confidence they need to use them effectively in making business decisions. The authors follow a "macro- to micro-" strategy by starting with a discussion of real financial statements first, rather than starting with the Accounting Cycle. The objective is to establish how a financial statement communicates the financing, investing, and operating activities of a business to users of accounting information. This motivates readers by grounding the discussion in the real world, showing them the relevance of the topics covered to their careers. New content features such as a fresh and focused approach to Excel, People, Profit, Planet , a revised continuing managerial case, and new managerial accounting videos will also engage students and differentiate Kimmel Accounting 5e from the prior edition.
