The Snowball

The story of the greatest of all philosophical friendships—and how it influenced modern thought David Hume is arguably the most important philosopher ever to have written in English, but during his lifetime he was attacked as “the Great Infidel” for his religious skepticism and deemed unfit to teach the young. In contrast, Adam Smith, now hailed as the founding father of capitalism, was a revered professor of moral philosophy. Remarkably, Hume and Smith were best friends, sharing what Dennis Rasmussen calls the greatest of all philosophical friendships. The Infidel and the Professor tells the fascinating story of the close relationship between these towering Enlightenment thinkers—and how it influenced their world-changing ideas. It shows that Hume contributed more to economics—and Smith contributed more to philosophy—than is generally recognized. The result is a compelling account of a great friendship that had great consequences for modern thought.

Financial Freedom

Discover the (surprising) secret to lifelong financial freedom with real estate investing. Real estate has always been a powerful tool for investing, and many people believe that a single-family home investment strategy will help them achieve their goals. However, the true path to financial freedom using real estate is found in apartment buildings. Real estate investing expert and author Michael Blank learned that once investors did their first deal, the curious "Law of the First Deal" led to the second and third deals in rapid succession. Most were able to quit their jobs within 3-5 years of getting started. Of course, when most people hear "apartment buildings" they immediately assume they need years of investing experience and money saved up to be able to get into the game. This simply isn't true. Michael has compiled the results of his research into his new book, Financial Freedom with Real Estate Investing: The Blueprint to Quitting Your Job with Real Estate - Even without Experience or Cash. He's outlined the "Financial Freedom Blueprint" that guides you through your first multifamily deal, even if you have no prior experience or your own cash.

A 9-Step Path to Financial Independence

The International Bestseller "This book blew my mind. More importantly, it made financial independence seem achievable. I read Financial Freedom three times, cover-to-cover." --Lifemaker Money is unlimited. Time is not. Become financially independent as fast as possible. In 2010, 24-year old Grant Sabatier woke up to find he had \$2.26 in his bank account. Five years later, he had a net worth of over \$1.25 million, and CNBC began calling him "the Millennial Millionaire." By age 30, he had reached financial independence. Along the way he uncovered that most of the accepted wisdom about money, work, and retirement is either incorrect, incomplete, or so old-school it's obsolete. Financial Freedom is a step-by-step path to make more money in less time, so you have more time for the things you love. It challenges the accepted narrative of spending decades working a traditional 9 to 5 job, pinching pennies, and finally earning the right to retirement at age 65, and instead offers readers an alternative: forget everything you've ever learned about money so that you can actually live the life you want. Sabatier offers surprising, counter-intuitive advice on topics such as how to: * Create profitable side hustles that you can turn into passive income streams or full-time businesses * Save money without giving up what makes you happy * Negotiate more out of your employer than you thought possible * Travel the world for less * Live for free--or better yet, make money on your living situation * Create a simple, money-making portfolio that only needs minor adjustments * Think creatively--there are so many ways to make money, but we don't see them. But most importantly, Sabatier highlights that, while one's ability to make money is limitless, one's time is not. There's also a limit to how much you can save, but not to how much money you can make. No one should spend precious years working at a job they dislike or worrying about how to make ends meet. Perhaps the biggest surprise: You need less money to "retire" at age 30 than you do at age 65. Financial Freedom is not merely a laundry list of advice to follow to get rich quick--it's a practical roadmap to living life on one's own terms, as soon as possible.

A paperback version is available from Amazon.com, although we offer this primarily as a convenience if you prefer hardcopy, and so that you can gift a pretty paperback version to a friend or family member on their birthday, holiday, or graduation. What you can expect from this program: The late Joe Dominguez, co-author of the bestseller *Your Money or Your Life*, spent a decade developing this program for himself. Nearly 40 years later, people's lives are still being enriched by the Financial Integrity Program he helped create.

Read Book Financial Freedom A Proven Path To All The Money You Will Ever Need

The program enables you to: Get out of debt Spend less Develop savings Learn to base your transactions (the getting, spending, investing and giving of your resources) on your own personal principles Achieve a degree of financial independence that allows you to spend your time doing what is fulfilling for you

Rick Van Ness, author of *Why Bother With Bonds* recently expanded Steps 8 and 9 to reflect the time-proven wisdom that many call the common sense investing principles. These are also recognized as the Bogleheads Investment Philosophy, an endearing term honoring John C. Bogle, lifelong champion for ordinary investors.

What's different about the 9-Step Financial Integrity Program? Many books and "step programs" on managing your money are available today. What most of these books have in common is that they assume your financial life functions separately from the rest of your life. The Financial Integrity Program is different. It is a 'whole systems' approach to your life. And it will take you back to basics-the basics of making your spending (and hopefully your saving and investing) of money into a clear mirror of your life values and purpose.

The purpose of the Financial Integrity Program is not to sell you anything-a product, a guru, a lifestyle. You don't need any of those to achieve your goals. But you don't need to go it alone, either. By using this proven, comprehensive program of nine steps based on classic financial principles, you can get where you want to go faster than making them up yourself. And it's all free.

Is this program what you need? Ask yourself these questions: Are you comfortable with the amount of money you have? Is it enough? Are you spending as much time with family and friends as you would like? Do you come home from your job feeling fulfilled? Do you have time to participate in things you believe are worthwhile? If you were laid off from your job, would you see it as a tragedy or an opportunity? Do you have enough savings to support you through six months of normal living expenses? When you think about your finances, do you feel peaceful and at ease? If you were to die in the next few years, would you be comfortable with your legacy or contribution to your family, your community, the world? Are all the aspects of your life - your job, your possessions, your relationships, your values - integrated? If you answered, 'no' to even one of these, then this 9-Step program can help.

Now available for Pre-Order! A common resolution set at the beginning of a new year is to "get my financial house in order." But how can you build a house, let alone pour any kind of foundation, without a blueprint? There are dozens of books and gurus trying to push their advice and tell you how to spend and invest your money. And then, there are three suburban dads just trying to make the world a little bit better. Meet Brad Barrett and Jonathan Mendonsa of the award-winning ChooseFI podcast and Chris Mamula of the popular blog "Can I Retire Yet?". They have walked the talk and now want to share their knowledge with you. Together, these three regular guys will show you how they did something extraordinary. They are all financially independent and doing meaningful work that fulfills them. All three left their corporate 9 to 5 jobs and are reaping the benefits of extra time with their families. Mirroring the format of the popular ChooseFI podcast, this book pulls from the collective knowledge of those who have decided to build a lifestyle around their passions instead of allowing their finances to dictate their future. These stories demonstrate universal principles, giving you the opportunity to pick the elements that are the most applicable to your financial situation and "choose your own adventure." The book covers a wide range of topics that will help you build a strong financial foundation: Developing a growth mindset Defining your values and aligning them with your spending Cutting years from your estimated retirement date Questioning the status quo on "required expenses" Cutting travel expenses and putting family vacations within your reach Learning how to earn more and live with abundance Updating the commonly accepted wisdom on college education and the debt associated with it Cutting through the noise on investing to discover strategies that work Showing how to implement investment strategies that enable the lifestyle you desire while controlling downside risk FI or Financial Independence is the new debt-free and getting back to 0 is just the beginning of a wonderful journey. Whether you have mountains of debt now or are recently debt free and wondering what to do next, Choose FI: Your Blueprint to Financial Independence will give you the information to guide your next move.
