As *The Giving Tree* turns fifty, this timeless classic is available for the first time ever in ebook format. This digital edition allows young readers and lifelong fans to continue the legacy and love of a household classic that will now reach an even wider audience. Never before have Shel Silverstein's children's books appeared in a format other than hardcover. Since it was first published fifty years ago, Shel Silverstein's poignant picture book for readers of all ages has offered a touching interpretation of the gift of giving and a serene acceptance of another's capacity to love in return. Shel Silverstein's incomparable career as a bestselling children's book author and illustrator began with *Lafcadio, the Lion Who Shot Back*. He is also the creator of picture books including *A Giraffe and a Half, Who Wants a Cheap Rhinoceros?*, *The Missing Piece*, *The Missing Piece Meets the Big O*, and the perennial favorite *The Giving Tree*, and of classic poetry collections such as *Where the Sidewalk Ends*, *A Light in the Attic*, *Falling Up*, *Every Thing On It*, *Don't Bump the Glump!*, and *Runny Babbit*. And don't miss these other Shel Silverstein ebooks, *Where the Sidewalk Ends*, and *A Light in the Attic!*

## Botanical Drawing

Following the success of *Anatomy for the Artist* and *Sketch Book for the Artist*, this latest title from the acclaimed artist Sarah Simblet investigates the extraordinary structure and variety of every type of plant—from mosses and lichens to flowers and trees—and teaches the reader how to draw them. The book starts with the history of plant drawing and painting. The author follows the trail of the early plant explorers and shows how the exotic specimens they brought home with them were depicted in botanical illustrations, anthologies, and decorative designs. The main part of the book examines the structure of plants, with visually stunning chapters on roots and stems, shoots and leaves, buds and flowers, and seeds and fruit, mosses and lichens, and trees. As in *Anatomy for the Artist*, beautiful, specially commissioned photographs complement Sarah's drawings, illustrating how an understanding of botany really helps you to draw plants. Drawing classes provide a wealth of practical advice on how to draw, and pages from Sarah's sketchbooks show how she records her favorite plants throughout the seasons. Inspirational master classes in

### 20 Ways to Draw a Tree and 44 Other Nifty Things from Nature

This is the story of one woman's journey from amateur painter to botanical artist, told through the sketchbooks and paintings she produced for the Distance Learning Diploma Course run by the Society of Botanical Artists. Packed with advice and tips, this book will serve as a guide and inspiration to anyone wanting to embark on life as a botanical artist. This book is both a showcase of Mary Ann Scott's work and a record of her achievements, including first-hand accounts of the joys and challenges she faced as she progressed. It contains work from every assignment she undertook, from her first attempts at drawing a tulip to the triumphant paintings she made for her diploma portfolio. Along the way are delicate floral compositions, juicy fruit and vegetables, botanical dissections, and her adventures out in the field. Margaret Stevens's comments on each assignments are also included, giving an insight into the assessment process and an all-round view of Mary Ann's successes and (very rare) failures. The book ends with a glorious selection of Mary Ann's ongoing

remarkable course you will learn to draw many types of plants, landscapes, shapes, and other things such as various objects. Some of these objects you will learn to draw include airplanes, automobiles, trains, boats, and toys. This book is aimed at teaching children (although it's great for any beginner no matter the age), and the choice of pictures is designed to keep a child fascinated. The method makes for a magical experience making drawing easy and delightfully interesting. The book is 104 pages and provides a step-by-step system that fixes the object in memory and develops naturally a physical skill and a memorized knowledge of proportion and form. Images are broken down into simple key-lines, which are then built upon with clear step-by-step instructions, resulting in impressive drawings. Instructions are very brief, for the key-lines of each object tell their own story and the child is entranced by the results soon gained. The youngest child may grasp the magic progress of this way of working and he or she will quickly learn to draw the picture naturally and well. We think anyone who applies the knowledge contained within this course will be delighted with their results, and the speed and ease at which they attain them.
