The must-read summary of Hollis Norton's book: "How to Make It When You're Cash Poor: Strategies for Buying Real Estate With Little or No Cash". This summary of the ideas from Hollis Norton's book "How to Make It When You're Cash Poor" shows that despite the property meltdown of recent years, anyone can still make big money in real estate, even if they don't have much cash to put down. The key is to solve a problem for the sellers, creating a win/win situation – they win by getting a problem solved and you win financially by being creative. Investment in property still remains the safest, most secure and profitable way to go about building a fortune. This

### Life Is Now! - How to Make it Happen

A City career can mean a life in the fast lane, a monstrous salary and bonus package with an expense account to match. Or it could mean working in a grey suit in a grey organization with a gold watch as the only bright spot on the horizon. If you want to succeed and have fun, you need to know where to start, who's who in the profession of your choice and how to network. Good qualifications are a must in certain fields but, in the City, drive, enthusiasm and charisma are what really count. If it's a City career you're after, this guide should keep you two steps ahead of the competition.

"During the last few years there has been a marked increase in interest in fruit juices. No class of culinary products made from fruit can be so cheaply and easily prepared. Moreover, no fruit products are more valuable for varying the home menu, as the juices can be used in the preparation of a great variety of beverages and deserts. In the United States many grapes go unused which might readily be conserved in the home as unfermented juice. Almost every family could afford, if need be, to purchase a bushel or two of grapes. This would be sufficient to make a supply of grape juice to meet the family's demand on special occasions, while the pomace can be used in making many other home products, such as jellies, paste, sauce, catsup, and vinegar. Where there is an abundant supply of fruit, it is nothing less than negligence not to prepare enough grape juice to allow it to be served

abundantly during the hot weather. It should be remembered that grape juice requires no sugar when made from the most suitable cultivated varieties and only very little when wild grapes are used. This bulletin is intended solely as a manual for the home preparation of unfermented juice." -- p. [2]

## Heart of the Matter

NOW COMPLETELY UPDATED to reflect the changes in tax legislation, health insurance, and the new investment realities. In this "highly valuable resource" (Publishers Weekly, starred review) Quinn "provides simple, straightforward" (The New York Times) solutions to the universal retirement dilemma—how to make your limited savings last for life—covering mortgages, social security, income investing, annuities, and more! Will you run out of money in your older age? That's the biggest worry for people newly retired or planning to retire. Fortunately, you don't have to plan in the dark. Jane Bryant Quinn tells you how to squeeze a higher income from all your assets—including your social security account (get every dollar you're entitled to), a pension (discover whether a lump sum or a lifetime monthly income will pay you more), your home equity (sell, rent, or take a reverse mortgage?), savings (how to use them safely to raise your monthly income), retirement accounts (invest the money for growth in ways that let you sleep at night), and—critically—how much of your savings you can afford to spend every year without running out. There are easy ways to figure all this out. Who knew? Quinn also shows you how to evaluate your real risks. If you stick with super-safe

investment choices, your money might not last and your lifestyle might erode. The same might be true if you rely on traditional income investments. Quinn rethinks the meaning of "income investing," by combining reliable cash flow during the early years of your retirement with low-risk growth investments, to provide extra money for your later years. Odds are, you'll live longer than you might imagine, meaning that your savings will stretch for many more years than you might have planned for. With the help of this book, you can turn those retirement funds into a "homemade" paycheck that will last for life.

Why is it that love seems to come easily to some people and not to others? In her first book, *What's Holding You Back? Eight Critical Choices for Women's Success*, Dr. Linda Austin explored the "psychological glass ceiling," the emotional barriers that keep women from achieving career success. This book is about a different kind of inner glass ceiling: the one that holds you back from the heights of great love. Dr. Austin is convinced that there's nothing fundamentally wrong with those who have difficulty finding and keeping love; BUT there may be specific behaviors that you engage in -- and specific behaviors that you do not engage in -- that have a profound impact on whether you find and keep love. The good news? Those behaviors can be learned, practiced, and eventually incorporated into your personality. Dr. Austin wants you to know that small adjustments in your outlook and actions can have enormous impact on your ability to get the love you want. And in this perceptive, highly original book, she identifies the five core behaviors that determine your ability to have successful, loving relationships, as well as the

patterns of behavior that can subtly sabotage those efforts.

The Core Behaviors 1. Engage with the World around You 2.

Evaluate the Choices You Make for Love 3. Expand Your

Safety Zone 4. Establish Emotional Independence 5. Evolve

Consciously, Willfully, Healthily Heart of the Matter shows

how these five essential practices can deepen and transform

your ability to give and receive love and loyalty. It explains

how to make those small and specific changes that will have

huge ripple effects on what happens to you in life -- and most

important of all, it demonstrates how to identify and use your

strengths so that you can move toward the life and love you

want so much. Heart of the Matter reflects Dr. Linda Austin's

twenty-five years as a psychiatrist, assisting all sorts of

people in their efforts to live more fully in the real world of

loving human relationships. Pragmatic and sensible, this book

is based on the conviction that each of us has the capacity to

improve our ability to find and inspire love through specific

behaviors. So whether you're currently in a relationship, or it's

been so long since you've dated that you think "seeing

someone" refers to a psychiatrist, Heart of the Matter can

help you move toward that healthy, loving relationship you

want -- and so richly deserve.

judges - on television or anywhere in the music business. Anastasia Brown, music producer and judge of Nashville Star, provides the insight anyone wanting to make it in the music business needs to know, whether through music contests or going the traditional route. From creating a memorable first impression to planning a winning strategy for sustained success, every step of the process is addressed. Behind the scenes stories of what worked (and what didn't) from such performers as Keith Urban, Reba McEntire, Carrie Underwood, and many more show the human side of the journey. Make Me a Star helps the reader determine his or her strengths and gives advice based on those strengths. Each chapter will also include insight from top producers, agents, publicists, and stylists. "They say a smart man learns from his mistakes but a wise man learns from another's mistakes. Some pitfalls are necessary for an artist's development, but not all. The stories and advice within these pages are not merely rhetoric or theory - they are hard-fought and hard-won experiences from those who've been in the trenches." ---Keith Urban

This story of The Author's unconventional lifestyle gives valuable lessons to the many people who leave school and University with no plans for their careers, and are just content to be buffeted along life's highways, waiting for the miracle which will never happen. For the many people who have probably wasted their time at school and University, it is never too late to take charge of their life by positive thinking. Henry Ford was 40 years old when he formed the Ford Motor Company . John Eaton was 26 years old when he decided to throw off the shackles of a comfortable and conventional career as a Design Engineer and ventured into the world of Show Business by opening up a closed down Dance hall. The newfound exctasy of being in charge of his own destiny drove him on to success in other business ventures and a period on the fringes of The Political Scene where he came into contact with Members Of The Cabinet. In addition, the detailed descriptions of of life during his childhood provide an intriguing insight into a way of life which has now become history and will fascinate readers who are accustomed to everyday use of Telephones,TVs, Computers and Motor Vehicles. The lessons learned by The Author about the complexities of human nature, as he navigated through The University Of Life, are well illustrated and invaluable to the reader who wants to "Make Life Happen" rather than let it wash over him. If this book can upgrade the chances of success in a career or improve the quality of life of a reader,then his work will not have been in vain.

Computers have been in daily use at work for nearly half a century. Each new generation of the technology – mainframes, mini-computers, Cs and the Internet – has brought a demand for a fresh set of skills, but there are never enough people to fill the ever-growing number of posts in the IT sector. This guarantees that there is stiff competition among employers for the best technicians, which means that salaries can be very high. The overall picture might be rosy, but if you want an honest evaluation of the different areas and jobs on offer, you need this book. Have you got the intellectual stamina to be a security analyst? What qualities and skills are employers looking for in their technical authors and operations managers? And how can you freelance successfully as a programmer or consultant? Based on interviews with people at all levels of the industry, this
