In this instant New York Times bestseller, Angela Duckworth shows anyone striving to succeed that the secret to outstanding achievement is not talent, but a special blend of passion and persistence she calls "grit." "Inspiration for non-genius everywhere" (People). The daughter of a scientist who frequently noted her lack of "genius," Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching, business consulting, and neuroscience that led to her hypothesis about what really drives success: not genius, but a unique combination of passion and long-term perseverance. In Grit, she takes us into the field to visit cadets struggling through their first

days at West Point, teachers working in some of the toughest schools, and young finalists in the National Spelling Bee. She also mines fascinating insights from history and shows what can be gleaned from modern experiments in peak performance. Finally, she shares what she 's learned from interviewing dozens of high achievers—from JP Morgan CEO Jamie Dimon to New Yorker cartoon editor Bob Mankoff to Seattle Seahawks Coach Pete Carroll. “ Duckworth ' s ideas about the cultivation of tenacity have clearly changed some lives for the better ” (The New York Times Book Review). Among Grit ' s most valuable insights: any effort you make ultimately counts twice toward your goal; grit can be learned, regardless of IQ or circumstances; when it comes to child-rearing, neither a warm embrace nor high standards will work by themselves; how to trigger lifelong interest; the magic of the Hard Thing Rule; and so much more. Winningly personal, insightful, and even life-changing, Grit is a book about what goes through your head when you fall down, and how that—not talent or luck—makes all the difference. This is “ a fascinating tour of the psychological research on success ” (The Wall Street Journal).

The City Reader

Offering streamlined coverage with an applied approach, Project Management in Practice, 6th Edition focuses on the essentials of project management. This concise, hands-on text is ideal for a one semester project management course, or as a module on project management. This textbook is organized around the project management life cycle, and provides students with essential project management concepts while addressing an important area of industry growth: the use of projects to achieve the strategic goals of organizations.

The Practice of Harmony

Scores of books and articles have been written in the popular press and mainstream marketplace about leadership: who leaders are, what they do, and why they matter. Yet in academia, there is a dearth of rigorous research, journal articles, or doctoral programs focused on leadership as a discipline. Why do top business schools espouse mission statements that promise to "educate the leaders of the future"- yet fail to give leadership its intellectual due? The Handbook of Leadership Theory and Practice seeks to bridge this disconnect. Based on the Harvard Business School Centennial Colloquium "Leadership: Advancing an Intellectual Discipline" and edited by HBS professors Nitin Nohria and Rakesh Khurana, this volume brings together the most important scholars from fields as diverse as psychology, sociology, economics, and history to take stock of what we know about leadership and to set an agenda for future research. More than a means of getting ahead and gaining power, leadership must be understood as a serious professional and personal responsibility. Featuring the thinking of today's most renowned scholars, the Handbook of Leadership Theory and Practice will be a catalyst for elevating leadership to a higher intellectual plane - and help shape the research agenda for the next generation of leadership scholars.

Leadership

Cases in Leadership is a unique collection of 30 real-world leadership cases from Ivey Publishing plus fourteen practitioner readings from the Ivey Business Journal. The updated casebook helps business students gain a better understanding of leadership and enables them to be more effective leaders through their careers. The selected cases are about complex leadership issues that require the attention of the decision-maker in each case. Each of the casebooks comes equipped with instructor ' s resources on CD-ROM. These affordable collections will not only help students connect to real-world situations, but will benefit corporations seeking continued education in the field as well.

ROSAT, the ROentgen SATellite launched in 1990, has revealed an entirely new aspect of the night sky - that of objects emitting X-rays rather than the rays of light visible to the human eye. This lavishly illustrated book is the first to describe one of the most remarkable instruments in modern astronomy. It offers fascinating images and engaging accounts of a wide range of Solar-System and deep space objects such as Comet Hyakutake, the Sun, the Moon, and objects outside the Milky Way.

Leading and Managing in Nursing - Revised Reprint

In his sixty-five-year consulting career, Peter F. Drucker, widely regarded as the father of modern management, identified eight practices that can make any executive effective. Leadership is not about charisma or extroversion. It ' s about these practices: Effective executives ask, " What needs to be done? " They also ask, " What is right for the enterprise? " They develop action plans. They take responsibility for decisions. They take responsibility for communicating. They focus on opportunities rather than problems. They run productive meetings. And they think and say " we " rather than " I. " Since 1922, Harvard Business Review has been a leading source of breakthrough ideas in management practice. The Harvard Business Review Classics series now offers you the opportunity to make these seminal pieces a part of your permanent management library. Each highly readable volume contains a groundbreaking idea that continues to shape best practices and inspire countless managers around the world.

Grit

This volume engages the concept and related notions of cultural hegemony, cultural erosion, cultural hybridity and cultural survival by considering whether five regimes in Asia deploy policies aimed at extirpating the language, religion, arts, customs or other elements of the cultures of non-dominant peoples.

The Leadership Challenge

The sixth edition of the highly successful The City Reader juxtaposes the very best classic and contemporary writings on the city to provide the comprehensive mapping of the terrain of Urban Studies and Planning old and new. The City Reader is the anchor volume in the Routledge Urban Reader Series and is now integrated with all ten other titles in the series. This edition has been extensively updated and expanded to reflect the latest thinking in each of the disciplinary areas included and in topical areas such as compact cities, urban history, place making, sustainable urban development,

globalization, cities and climate change, the world city network, the impact of technology on cities, resilient cities, cities in Africa and the Middle East, and urban theory. The new edition places greater emphasis on cities in the developing world, globalization and the global city system of the future. The plate sections have been revised and updated. Sixty generous selections are included: forty-four from the fifth edition, and sixteen new selections, including three newly written exclusively for The City Reader. The sixth edition keeps classic writings by authors such as Ebenezer Howard, Ernest W. Burgess, LeCorbusier, Lewis Mumford, Jane Jacobs, and Louis Wirth, as well as the best contemporary writings of, among others, Peter Hall, Manuel Castells, David Harvey, Saskia Sassen, and Kenneth Jackson. In addition to newly commissioned selections by Yasser Elshestawy, Peter Taylor, and Lawrence Vale, new selections in the sixth edition include writings by Aristotle, Peter Calthorpe, Alberto Camarillo, Filip DeBoech, Edward Glaeser, David Owen, Henri Pirenne, The Project for Public Spaces, Jonas Rabinovich and Joseph Lietman, Doug Saunders, and Bish Sanyal. The anthology features general and section introductions as well as individual introductions to the selected articles introducing the authors, providing context, relating the selection to other selection, and providing a bibliography for further study. The sixth edition includes fifty plates in four plate sections, substantially revised from the fifth edition.

This textbook offers a carefully paced and sympathetic treatment of linear algebra, assuming knowledge only of the basic notation and elementary ideas of set theory. It progresses gradually to the more powerful and abstract notions of linear algebra, providing exercises which test and develop the reader's understanding at the end of each section. Full answers are given for most of the exercises to facilitate self-paced study.

What Makes an Effective Executive (Harvard Business Review Classics)

This accessible and comprehensive textbook is designed specifically to develop students' understanding of leadership in a variety of contexts. Assuming no prior experience of leadership in the business world, this book is a must-read for students embarking on their study of leadership, while thinking ahead to their own future employment. The book is divided into two clear parts, to logically guide the reader through the key theoretical models of leadership, as well as the issues and themes that surround the subject. Part 1 clearly examines the main theories in the field, including situational and contingency theories, behavioural models, and trait theory, while Part 2 draws on a number of different themes to add depth to the theoretical ideas discussed, such as diversity, power, and ethics. This structure ensures a fundamental understanding of the basics of the subject, as well as a comprehensive grasp of relevant contemporary issues. To help to interpret the key theories, the book also illustrates leadership in action

using a wealth of diverse case studies. Examples have been carefully selected to highlight the practical application of leadership theory, both in a formal business context and in everyday life, and dispel the common misconception for students new to leadership that it is only for the 'great and good'. Case studies are from the world of politics, entertainment, and sport; from Jeremy Corbyn, Quentin Tarantino, and Oscar Pistorius, to the NHS, Queen Elizabeth I, and Caitlyn Jenner. These case studies explore leadership across a variety of contexts and cultures, giving students the broad perspective they need to consider the subject critically. Pause for thought boxes, self-test questionnaires, and assignment questions encourage students to reflect on the theories and practices they've learned about and how such concepts and issues might apply in their own approach to leadership. Together with the lively writing style, stimulating case studies, and further learning features, this allows students to fully engage with the subject and use the book as an essential tool in their leadership studies. This book is accompanied by an Online Resource Centre featuring: For students: Multiple choice questions Flashcard glossaries Web links For lecturers: PowerPoint slides Lecturer guide Video links

The Invisible Sky

In times of constant change, adaptive leadership is critical. This Harvard Business Review collection brings together the seminal ideas on how to adapt and thrive in challenging environments, from leading thinkers on the topic—most notably Ronald A. Heifetz of the Harvard Kennedy School and Cambridge Leadership Associates. The Heifetz Collection includes two classic books: Leadership on the Line, by Ron Heifetz and Marty Linsky, and The Practice of Adaptive Leadership, by Heifetz, Linsky, and Alexander Grashow. Also included is the popular Harvard Business Review article, “ Leadership in a (Permanent) Crisis, ” written by all three authors. Available together for the first time, this collection includes full digital editions of each work. Adaptive leadership is a practical framework for dealing with today ' s mix of urgency, high stakes, and uncertainty. It has been used by individuals, organizations, businesses, and governments worldwide. In a world of challenging environments, adaptive leadership serves as a guide to distinguishing the essential from the expendable, beginning the meaningful process of adaption, and changing the status quo. Ronald A. Heifetz is a cofounder of the international leadership and consulting practice Cambridge Leadership Associates (CLA) and the founding director of the Center for Public Leadership at the Harvard Kennedy School. He is renowned worldwide for his innovative work on the practice and teaching of leadership. Marty Linsky is a cofounder of CLA and has taught at the Kennedy School for more than twenty-five years. Alexander Grashow is a Senior Advisor to CLA, having previously held the position of CEO.

The seventh edition of author Daniel Wren's and Arthur Bedeian 's classic text provides a comprehensive understanding of the origin and development of ideas in management. This text traces the evolution of management thought from its earliest days to the present, by examining the backgrounds, ideas and influences of its major contributors. Every chapter in the seventh edition of The Evolution of Management Thought has been thoroughly reviewed and updated to convey an appreciation of the people and ideas underlying the development of management theory and practice. The new edition includes an Instructor 's Manual and a PowerPoint package featuring 650 photographs, charts, and other visual materials. The authors ' intent is to place various theories of management in their historical context, showing how they 've changed over time. The text does this in a chronological framework, yet each part is designed as a separate and self-contained unit of study; substantial cross-referencing provides the opportunity for connecting earlier to later developments as a central unifying theme.

Handbook of Leadership Theory and Practice

There are good leaders, then there are exceptional leaders. The answer to "What makes a leader exceptional?" is simple: competencies. Competencies are a set of professional and personal skills, knowledge, values, and traits that guide a leader's performance. This book focuses on the 16 key competencies that distinguish good leadership from great leadership.
