3 Existing authentication methodologies involve three basic “factors”:

- Something the user knows (e.g., password, PIN);
- Something the user has (e.g., ATM card, smart card); and
- Something the user is (e.g., biometric characteristic, such as a fingerprint).

Authentication methods that depend on more than one factor are more difficult to compromise

Questioned document examination - Wikipedia

Procedural due process, based on principles of “fundamental fairness,” addresses which legal procedures are required to be followed in state proceedings. Relevant issues, as discussed in detail below, include notice, opportunity for hearing, confrontation and cross-examination, discovery, basis of decision, and availability of counsel.
