Enjoy the acclaimed graphic novel as an ART BOOK! Each page of this classic story is reproduced from the original art--while appearing to be in black and white, the art is scanned IN COLOR, capturing all the nuances (blue pencil, white out, etc) and quirks that make original art unique! DAVID MAZZUCHELLI'S DAREDEVIL BORN AGAIN was released in the much lauded Artist's Edition format in 2012. It soon became the best-selling Artist's Edition of all-time and was universally acclaimed. In 2013 the book received the prestigious Eisner Award for Best Archival Project--Comic Books, as well as a Harvey Award the same year. It soon sold out and has been the single most requested AE book to date for IDW to reissue. So it is only fitting that IDW launch its new MARVEL series of Artisan books with this award-winning classic! Just as the original release, DAVID MAZZUCHELLI'S DAREDEVIL BORN AGAIN ARTISAN EDITION features the same scans--entirely from the original art--each painstakingly done by David Mazzucchelli himself to ensure the finest quality possible. If ever a book deserved to be in this format it is Daredevil Born Again. Frank Miller, at the peak of his powers, crafted a story that remains--in an extraordinary career--one of his finest pieces of writing. And David Mazzucchelli does a stellar tour de force job as his collaborator, providing a nuanced and nearly pitch-perfect turn as artist. If there is any book deserving to be re-read and rediscovered this is the one!

The Art of Teenage Mutant Ninja Turtles

"Walter Simonson wrote and drew The Might Thor for nearly four years. Seven of those issues, including covers, are reproduced in this volume. All of the original art created for these issues has remained in Simonson's possession since first drawn. It is because of Simonson's decision to retain all

his artwork that this book is possible. All pages have been shot from the original art, in color and at the same size they were drawn, to ensure the finest quality reproduction." -- About this edition page.

A Brief History of Comic Book Movies traces the meteoric rise of the hybrid art form of the comic book film. These films trace their origins back to the early 1940s, when the first Batman and Superman serials were made. The serials, and later television shows in the 1950s and 60s, were for the most part designed for children. But today, with the continuing rise of Comic-Con, they seem to be more a part of the mainstream than ever, appealing to adults as well as younger fans. This book examines comic book movies from the past and present, exploring how these films shaped American culture from the post-World War II era to the present day, and how they adapted to the changing tastes and mores of succeeding generations.
