A New Statesman best book of the year | New York Times Editors' Choice pick A Financial Times best economics book of 2019 An accessible, story-driven look at the future of the global economy, written by a leading expert To predict our future, we must look to the extremes. So argues the economist Richard Davies, who takes readers to the margins of the modern economy and beyond in his globe-trotting book. From a prison in rural Louisiana where inmates purchase drugs with prepaid cash cards to the poorest major city on earth, where residents buy clean water in plastic bags, from the world's first digital state to a prefecture in Japan whose population is the oldest in the world, how these extreme economies function—most often well outside any official oversight—offers a glimpse of the forces that underlie human resilience, drive societies to failure, and will come to shape our collective future. While the people who inhabit these places have long been dismissed or ignored, *Extreme Economies* revives a foundational idea from medical science to turn the logic of modern economics on its head, arguing that the outlier economies are the place to learn about our own future. Whether following Punjabi migrants through the lawless Panamanian jungle or visiting a day-care for the elderly modeled after a casino, Davies brings a storyteller's eye to places where the economy has been destroyed, distorted, and even turbocharged. In adapting to circumstances that would be unimaginable to most of us, the people he encounters along the way have helped to pioneer the economic infrastructure of the future. At once personal and keenly analytical, *Extreme Economies* is an epic

travelogue for the age of global turbulence, shedding light on today's most pressing economic questions.

Phantom Tales of the Night 3

One bonus of getting older is that it gives us a great perspective on life and that includes plenty of humor! This collection of cartoons, quips, quotes, and insights introduces a new comedy genre: elderhumor. It captures the wry hilarity of our real-life sitcoms. Generational vocabulary gaps, miscommunications, preoccupation with health and comforts, foibles, disguises (for aging), even physical limitations -- all can have their funny sides when we're laughing at ourselves. This book, a light-hearted gift for anyone who's 50-plus, is a memoryjogger too. Remember the Katzenjammer Kids? Jack Armstrong? Apple Mary? Check out your friends' ages by their responses to a "Vanishing Words" test (examples: "spider," "broomstick skirt," "running board," "the shag"). If you're still calling the refrigerator an "icebox," it's a giveaway -- you're probably over 60. *What's So Funny about Getting Old?* is brought to you by a comedy team of two. Ed Fischer is an award-winning cartoonist. Jane Thomas Noland, author of *Laugh It Off* (what's so funny about trying to lose weight?) is a books editor and a former Minneapolis Star Tribune feature writer. Both have delicious ways of looking at life. Both, like all the rest of us, are getting older. Laughter heals. Laughter helps. Laughter keeps us in shape emotionally and physically. Read this book and try it. You'll be convinced, as these authors are, that there's only one way to grow older -- with a healthy sense of humor!
