pollution - while supporting local economies. We do not use real leather or metal, but we do appreciate their aesthetics - you will find that the dark strip printed on the side of most notebooks mimics leather pattern so that you may enjoy the look without harming animals. Hard, plastic, leather or synthetic covers put unnecessary strain on the environment as they may increase excess waste and take centuries to decay - long after you are done using the product. Our covers are all sturdy paperbacks with a layer of protective surface that reduce pollution and are easily recycled. "As a paper products company that also prints books for children we cannot compromise on these distinctive features as we work to preserve the planet for future generations." - CEO, Krisp. We hope that you will consider our efforts to protect the environment and join our message.
