Large solar thermal power stations include the 354 megawatt (MW) Solar Energy Generating Systems power installation in the USA, Solnova Solar Power Station (Spain, 150 MW), Andasol solar power station (Spain, 100 MW), Nevada Solar One (USA, 64 MW), PS20 solar power tower (Spain, 20 MW), and the PS10 solar power tower (Spain, 11 MW).

Guinness World Records Kids: Home | Guinness World Records

Wind Energy - If you've ever seen a windmill, you've seen wind energy in action; in fact, it's one of the oldest forms of energy humans have used. Modern versions are called wind turbines, which use propellers to harvest the wind energy. It's a relatively inexpensive energy source, but requires careful planning and use of the right location with enough wind to regularly generate power.

Bing: The Energy Bus For Kids

Magic Bus, an NGO for kids and young people, takes them on a journey from Childhood to Livelihood and out of poverty. By enabling children to complete secondary education, delay their age at marriage, and skilling young people to be in jobs, we are helping move a generation out of the self-perpetuating cycle of poverty.
