Poor Charlie's Almanack

Reveals how and why personal finance and business plans based on mathematical assumptions are often wrong and how probability management can help remedy problems with communicating uncertainty and risk.

You Can Be a Stock Market Genius

Widely respected and admired, Philip Fisher is among the most influential investors of all time. His investment philosophies, introduced almost forty years ago, are not only studied and applied by today's financiers and investors, but are also regarded by many as gospel. This book is invaluable reading and has been since it was first published in 1958. The updated paperback retains the investment wisdom of the original edition and includes the perspectives of the author's son Ken Fisher, an investment guru in his own right in an expanded preface and introduction "I sought out Phil Fisher after reading his Common Stocks and Uncommon Profits A thorough understanding of the business, obtained by using Phil's techniques enables one to make intelligent investment commitments." —Warren Buffet

The Curse of the Mogul

This authoritative and accessible investment classic promises rare insight into what it really takes to run money in a top-performing investment fund. Anthony Bolton, the UK's most successful stock market investor, tells the story of his contrarian approach to managing money. He provides invaluable lessons on the factors that really matter in picking a stock: the need to identify good managers, how to run a portfolio, the importance of value investing, reading charts and how to trade successfully. It's not easy to continually buy low and sell high.

Access Free The Most Important Thing Illuminated Uncommon Sense For The Thoughtful Investor Columbia Business School Publishing

This book gives clear directions for doing well in the stock market, and doing well consistently. Investing Against the Tide shows you how to make the right decisions at the right time. Anthony Bolton is considered the UK's most successful stock market investor and fund manager. Over twenty five years he delivered a market-beating return of 20% in his Fidelity Special Situations Fund. How did he do it, and what can you learn from him? In Investing Against the Tide, Anthony Bolton tells the story of his contrarian approach to managing money. He provides invaluable lessons on the factors that really matter when investing: how to pick a stock, the need to identify good managers, how to run a portfolio, the importance of value investing, reading charts and how to trade successfully. In this account of financial accomplishment, Bolton reveals the secrets of his success. It's not easy constantly to buy low and sell high and this book gives clear directions for doing well in the stock market, and doing well consistently. Chapter by chapter Investing Against the Tide shows you how to make the right decisions at the right time and featured key lessons show you how you really can learn from a life running money. Investing Against the Tide is an authoritative guide for investment professionals, offering them a rare insight into what it really takes to run money in a top-performing fund, as well as providing amateur investors the chance to learn the stock-picking strategies from a leading money-manager. About the author Anthony Bolton left Cambridge University with a degree in engineering to begin a career in the City. He started as a graduate trainee working for Keyser Ullmann in 1971 before taking up a full time position as an assistant in their investment department. In 1976 he moved to Schlesingers where he became, for the first time, an investment manager. In 1979, aged 29, he was recruited by Fidelity, the international fund management group, as one of its first London-based investment managers, a move that proved to be the launch of a long and successful career. In surveys of professional investors, he is regularly voted the fund manager most respected by his peers. He retired from full-time investment management at the end of 2007, but continues to work at Fidelity as a mentor of the analysts and younger fund managers as well as being involved in overseeing Fidelity's investment process. His hobby is composing classical music. Anthony Bolton is married with three children and lives in West Sussex.

The Flaw of Averages

Imagine a novel as verbally cunning as *A Clockwork Orange*, as harrowing as *The Painted Bird*, as exuberant and twee as *Candide*, and you have *Everything Is Illuminated* . . . Read it, and you'll feel altered, chastened — seared in the fire of something new. — *Washington Post* With only a yellowing photograph in hand, a young man — also named Jonathan Safran Foer — sets out to find the woman who might or might not have saved his grandfather from the Nazis. Accompanied by an old man haunted by memories of the war, an amorous dog named Sammy Davis, Junior, Junior, and the unforgettable Alex, a young Ukrainian translator who speaks in a sublimely butchered English, Jonathan is led on a quixotic journey over a devastated landscape and into an unexpected past. As their adventure unfolds, Jonathan imagines the history of his grandfather's village, conjuring a magical fable of startling symmetries that unite generations across time. As his search moves back in time, the fantastical history moves forward, until reality collides with fiction in a heart-stopping scene of extraordinary power. — A rambunctious tour de force of inventive and intelligent storytelling . . . Foer can place his reader's hand on the heart of human experience, the transcendent beauty of human connections. Read, you can feel the life beating. — *Philadelphia Inquirer*

Mr Nice

Winner of the 2014 Newbery Medal Holy unanticipated occurrences! A cynic meets an unlikely superhero in a genre-breaking new novel by master storyteller Kate DiCamillo. It begins, as the best superhero stories do, with a tragic accident that has unexpected consequences. The squirrel never saw the vacuum cleaner coming, but self-described cynic Flora Belle Buckman, who has read every issue of the comic book *Terrible Things Can Happen to You!*, is just the right person to step in and save him. What neither can predict is that Ulysses (the squirrel) has been born anew, with powers of strength, flight, and misspelled poetry — and that Flora will be changed too, as she discovers the possibility of hope and the promise of a capacious heart. From #1 New York Times best-selling author Kate DiCamillo comes a laugh-out-loud story filled with eccentric, endearing characters and featuring an exciting new format — a novel interspersed with comic-style graphic sequences and full-page illustrations, all rendered in black-and-white by up-and-coming artist K. G. Campbell.

Flora & Ulysses

Describes the opportunities and risks of commercial and residential real-estate investment, offering advice on finding the right property, financing, development, and sale

Data-Driven Marketing

Lost for 13 months in the wilds of Afghanistan, this is the dramatic, heart - warming and truly amazing story of Sarbi, the Army's most famous explosives detection dog - the miracle dog of Tarin Kot. Powerful, dramatic, heartwarming, this is the true story of Sarbi, the scruffy black Labrador - cross trained by the Australian Army as an explosives detection dog for the most dangerous combat mission imaginable. Thirteen months after Australia's most famous canine warrior went missing in action following an historic battle between the elite SAS and the Taliban in Afghanistan in 2008, she was found by an American Special Forces officer patrolling a village in a region known to be a Taliban stronghold. Against all odds, Sarbi had survived her injuries, the enemy's weapons, a bitter winter, one brutal summer and the harsh unforgiving landscape on her own. She was the miracle dog of Tarin Kot. Sarbi's story, and those of the other brave Australian Army dogs in Afghanistan, will resonate with anyone who has known the unconditional love of man's best friend, and understands the rewards of unbidden loyalty, trust and devotion. It will appeal to all those who appreciate the selflessness of serving your country and the inherent dangers of putting your life on the line for others in a war zone. And it will strike a chord with anyone who has experienced the magical connection with a dog.

Volcker slayed the inflation dragon that was consuming the American economy and restored the world's faith in central bankers. That extraordinary feat was just one pivotal episode in a decades-long career serving six presidents. Told with wit, humor, and down-to-earth erudition, the narrative of Volcker's career illuminates the changes that have taken place in American life, government, and the economy since World War II. He vibrantly illustrates the crises he managed alongside the world's leading politicians, central bankers, and financiers. Yet he first found his model for competent and ethical governance in his father, the town manager of Teaneck, NJ, who instilled Volcker's dedication to absolute integrity and his "three verities" of stable prices, sound finance, and good government.

The 2% Rule to Get Debt Free Fast

CREATE A LONG-TERM, NO-FUSS, WEALTH-BUILDING PLAN THAT WILL GET YOU OUT OF AN OFFICE CUBICLE FOR GOOD Entrepreneur Media has teamed up with Nightingale-Conant, the world leader in self-development, to show you how to escape the 9-to-5 rat race, harness the power of passive income, and earn a steady stream of cash while living your best life. The Mind Illuminated

Nicholas Duck loves Christmas, and he is happy to try on the new Santa hat that's mysteriously delivered to his house. But when his friends see him and immediately launch into their Christmas lists, he doesn't know what to do . . . until he runs into Santa himself.

Shahnameh

In this quietly revolutionary work of social observation and medical philosophy, Booker Prize-winning writer John Berger and the photographer Jean Mohr train their gaze on an English country doctor and find a universal man—one who has taken it upon himself to recognize his patient's humanity when illness and the fear of death have made them unrecognizable to themselves. In the impoverished rural community in which he works, John Sassall tend the maimed, the dying, and the lonely. He is not only the dispenser of cures but the repository of memories. And as Berger and Mohr follow Sassall about his rounds, they produce a book whose careful detail broadens into a meditation on the value we assign a human life. First published thirty years ago, *A Fortunate Man* remains moving and deeply relevant--no

Here is your personal treasure map to special situations in which big profits are possible, including: · Spin-offs · Restructurings · Merger Securities · Rights Offerings · Recapitalizations · Bankruptcies · Risk Arbitrage

Investing Against the Tide

This bestselling account of Howard Marks' life as an international drug smuggler is now being turned into a major film starring Rhys Ifans, Chloe Sevigny and David Thewlis. Numerous books and TV documentaries have been devoted to Marks' life. Mr Nice is his personal story.

The Little Book of Value Investing

Howard Marks's *The Most Important Thing* distilled the investing insight of his celebrated client memos into a single volume and, for the first time, made his time-tested philosophy available to general readers. In this edition, Marks's wisdom is joined by the comments, insights, and counterpoints of four renowned investors and investment educators: Christopher C. Davis (Davis Funds), Joel Greenblatt (Gotham Capital), Paul Johnson (Nicusa Capital), and Seth A. Klarman (Baupost Group). These experts lend insight into such concepts as "second-level thinking," the price/value relationship, patient opportunism, and defensive investing. Marks also adds his own annotations, expanding on his book's original themes and issues. A new chapter addresses the importance of reasonable expectations, and a foreword by Bruce C. Greenwald, called "a guru to Wall Street's gurus" by the *New York Times*, speaks on value investing, productivity, and the economics of information. *** Howard Marks, the chairman and cofounder of Oaktree Capital Management, is renowned for his insightful assessments of market opportunity and risk. After four decades spent ascending to the top of the investment management profession, he is today sought out by the world's leading value investors, and his client memos brim with insightful commentary and a time-tested, fundamental philosophy. Now for the first time, all readers can benefit from Marks's wisdom, concentrated into a single volume that speaks to both the amateur and seasoned investor. Informed by a lifetime of experience and study, *The Most Important Thing* explains the keys to successful investment and

Access Free The Most Important Thing Illuminated Uncommon Sense For The Thoughtful Investor Columbia Business School Publishing

the pitfalls that can destroy capital or ruin a career. Utilizing passages from his memos to illustrate his ideas, Marks teaches by example, detailing the development of an investment philosophy that fully acknowledges the complexities of investing and the perils of the financial world. Brilliantly applying insight to today's volatile markets, Marks offers a volume that is part memoir, part creed, with a number of broad takeaways. Marks expounds on such concepts as "second-level thinking," the price/value relationship, patient opportunism, and defensive investing. Frankly and honestly assessing his own decisions--and occasional missteps--he provides valuable lessons for critical thinking, risk assessment, and investment strategy. Encouraging investors to be "contrarian," Marks wisely judges market cycles and achieves returns through aggressive yet measured action. Which element is the most essential? Successful investing requires thoughtful attention to many separate aspects, and each of Marks's subjects proves to be the most important thing. "This is that rarity, a useful book."--Warren Buffett

Everything Is Illuminated

"This is that rarity, a useful book."--Warren Buffett Howard Marks, the chairman and cofounder of Oaktree Capital Management, is renowned for his insightful assessments of market opportunity and risk. After four decades spent ascending to the top of the investment management profession, he is today sought out by the world's leading value investors, and his client memos brim with insightful commentary and a time-tested, fundamental philosophy. Now for the first time, all readers can benefit from Marks's wisdom, concentrated into a single volume that speaks to both the amateur and seasoned investor. Informed by a lifetime of experience and study, *The Most Important Thing* explains the keys to successful investment and the pitfalls that can destroy capital or ruin a career. Software Architecture and Design Illuminated

New York Times Bestseller Washington Post Bestseller Los Angeles Times Bestseller *Stress Test* is the story of Tim Geithner's education in

financial crises. As president of the Federal Reserve Bank of New York and then as President Barack Obama's secretary of the Treasury, Timothy F. Geithner helped the United States navigate the worst financial crisis since the Great Depression, from boom to bust to rescue to recovery. In a candid, riveting, and historically illuminating memoir, he takes readers behind the scenes of the crisis, explaining the hard choices and politically unpalatable decisions he made to repair a broken financial system and prevent the collapse of the Main Street economy. This is the inside story of how a small group of policy makers—in a thick fog of uncertainty, with unimaginably high stakes—helped avoid a second depression but lost the American people doing it. *Stress Test* is also a valuable guide to how governments can better manage financial crises, because this one won't be the last. *Stress Test* reveals a side of Secretary Geithner the public has never seen, starting with his childhood as an American abroad. He recounts his early days as a young Treasury official helping to fight the international financial crises of the 1990s, then describes what he saw, what he did, and what he missed at the New York Fed before the Wall Street boom went bust. He takes readers inside the room as the crisis began, intensified, and burned out of control, discussing the most controversial episodes of his tenures at the New York Fed and the Treasury, including the rescue of Bear Stearns; the harrowing weekend when Lehman Brothers failed; the searing crucible of the AIG rescue as well as the furor over the firm's lavish bonuses; the battles inside the Obama administration over his widely criticized but ultimately successful plan to end the crisis; and the bracing fight for the most sweeping financial reforms in more than seventy years. Secretary Geithner also describes the aftershocks of the crisis, including the administration's efforts to address high unemployment, a series of brutal political battles over deficits and debt, and the drama over Europe's repeated flirtations with the economic abyss. Secretary Geithner is not a politician, but he has things to say about politics—the silliness, the nastiness, the toll it took on his family. But in the end, *Stress Test* is a hopeful story about public service. In this revealing memoir, Tim Geithner explains how America withstood the ultimate stress test of its political and financial systems. From the Hardcover edition.

The Great Minds of Investing

"My friend — and now partner — Jorge Paulo and his team are among the best businessmen in the world. He is a fantastic person and his story should be an inspiration to everybody, as it is for me." — Warren Buffett In just over forty years, Jorge Paulo Lemann, Marcel Telles and Beto Sicupira built the biggest empire in the history of Brazilian capitalism and launched themselves onto the world stage in an unprecedented way. Over the past five years, they have acquired no fewer than three globally-recognized American brands: Budweiser, Burger King and Heinz. This has been achieved as discreetly as possible and they have shunned any personal publicity. The management method they developed, which has been zealously followed by their employees, is based on meritocracy, simplicity and constant cost cutting. Their culture is as efficient as it is merciless and leaves no room for mediocre performances. On the other hand, those who bring in exceptional results have the chance to become company partners and make a fortune. *Dream Big* presents a detailed behind-the-scenes portrait of the meteoric rise of these three businessmen, from the founding of Banco Garantia in the 1970s to the present day.

Astro Poets

Access Free The Most Important Thing Illuminated Uncommon Sense For The Thoughtful Investor Columbia Business School Publishing

There are many ways to make money in today's market, but the one strategy that has truly proven itself over the years is value investing. Now, with *The Little Book of Value Investing*, Christopher Browne shows you how to use this wealth-building strategy to successfully buy bargain stocks around the world.

The Most Important Thing Illuminated

What is the best time to do things? Who is the most important one? What is the right thing to do? Nikolai knows that he wants to be the best person he can be, but often he is unsure if he is doing the right thing. So he goes to ask Leo, the wise turtle. When he arrives, the turtle is struggling to dig in his garden, and Nikolai rushes to help him. As he finishes work, a violent storm rolls in. Nikolai runs for Leo's cottage, but on his way, he hears cries for help from an injured panda. Nikolai brings her in from the cold, and then rushes back outside to rescue her baby too.

Common Stocks and Uncommon Profits and Other Writings

Since its first publication, Michael J. Mauboussin's popular guide to wise investing has been translated into eight languages and has been named best business book by *BusinessWeek* and best economics book by *Strategy+Business*. Now updated to reflect current research and expanded to include new chapters on investment philosophy, psychology, and strategy and science as they pertain to money management, this volume is more than ever the best chance to know more than the average investor. Offering invaluable tools to better understand the concepts of choice and risk, *More Than You Know* is a unique blend of practical advice and sound theory, sampling from a wide variety of sources and disciplines. Mauboussin builds on the ideas of visionaries, including Warren Buffett and E. O. Wilson, but also finds wisdom in a broad and deep range of fields, such as casino gambling, horse racing, psychology, and evolutionary biology. He analyzes the strategies of poker experts David Sklansky and Puggy Pearson and pinpoints parallels between mate selection in guppies and stock market booms. For this edition, Mauboussin includes fresh thoughts on human cognition, management assessment, game theory, the role of intuition, and the mechanisms driving the market's mood swings, and explains what these topics tell us about smart investing. *More Than You Know* is written with the professional investor in mind but extends far beyond the world of economics and finance. Mauboussin groups his essays into four parts—Investment Philosophy, Psychology of Investing, Innovation and Competitive Strategy, and Science and Complexity Theory—and he includes substantial references for further reading. A true eye-opener, *More Than You Know* shows how a multidisciplinary approach that pays close attention to process and the psychology of decision making offers the best chance for long-term financial results.

Santa Duck

From the "guru to Wall Street's gurus" comes the fundamental techniques of value investing and their applications Bruce Greenwald is one of the leading authorities on value investing. Some of the savviest people on Wall Street have taken his Columbia Business School executive

Access Free The Most Important Thing Illuminated Uncommon Sense For The Thoughtful Investor Columbia Business School Publishing

education course on the subject. Now this dynamic and popular teacher, with some colleagues, reveals the fundamental principles of value investing, the one investment technique that has proven itself consistently over time. After covering general techniques of value investing, the book proceeds to illustrate their applications through profiles of Warren Buffett, Michael Price, Mario Gabellio, and other successful value investors. A number of case studies highlight the techniques in practice. Bruce C. N. Greenwald (New York, NY) is the Robert Heilbrunn Professor of Finance and Asset Management at Columbia University. Judd Kahn, PhD (New York, NY), is a member of Morningside Value Investors. Paul D. Sonkin (New York, NY) is the investment manager of the Hummingbird Value Fund. Michael van Biema (New York, NY) is an Assistant Professor at the Graduate School of Business, Columbia University.

Stress Test

In 2002, Einhorn spoke publicly about Allied Capital--a leader in the private finance industry--presenting it as an excellent short opportunity. Einhorn describes the incredible events that followed his speech and how Allied and the investment community attacked him to protect the company--and its stock price. Informative and intriguing, "Fooling Some of the People All of the Time" details how the current environment on Wall Street--and the world of hedge funds in particular-- not only allows for such behavior, but how it protects the companies and attacks those who attempt to uncover them.--From publisher's description.

The Most Important Thing

If Rupert Murdoch and Sumner Redstone are so smart, why are their stocks long-term losers? We live in the age of big Media, with the celebrity moguls telling us that "content is king." But for all the excitement, glamour, drama, and publicity they produce, why can't these moguls and their companies manage to deliver better returns than you'd get from closing your eyes and throwing a dart? The Curse of the Mogul lays bare the inexcusable financial performance beneath big Media's false veneer of power. By rigorously examining individual media businesses, the authors reveal the difference between judging a company by how many times its CEO is seen in SunValley and by whether it generates consistently superior profits. The book is packed with enough sharp-edged data to bring the most high-flying, hot-air filled mogul balloon crashing down to earth.

Dream Big

Charles Munger is Warren Buffett decade's long business partner, and his investment filter, jokingly called by Mr. Buffett - the abominable no man. The early pages cover Munger's family history, his framework for investing [wait for the fat pitches, and assess each opportunity using rational, rigorous frameworks drawn from multiple disciplines (and not finance theory!)], and even some warm testaments from family, friends and colleagues. The next section, assembled by leading investor Whitney Tilson, is well edited and benefits from Tilson's massaging of quotations made over time into logical sub-headings. The bulk of the text though is, as the subtitle suggests, the wit and wisdom of Mr.

Munger as conveyed through various speeches in the last couple decade or so before 2006.

Crystallography and Crystal Defects

Legendary investor Howard Marks is chairman and co-founder of Oaktree Capital Management, which has \$100 billion under management. He is sought out by the world's leading value investors, and his client memos brim with insightful commentary and a time-tested, fundamental philosophy. Now for the first time, readers can benefit from Marks's wisdom, concentrated into a single volume that speaks to both the amateur and seasoned investor. Informed by a lifetime of experience and study, *The Most Important Thing* explains the keys to successful investment and the pitfalls that can destroy capital or ruin a career. Utilizing passages from his memos to illustrate his ideas, Marks teaches by example, detailing the development of an investment philosophy that fully acknowledges the complexities of investing and the perils of the financial world. Brilliantly applying insight to today's volatile markets, Marks offers a volume that is part memoir, part creed, with a number of broad takeaways.

The Most Important Thing: Uncommon Sense for The Thoughtful Investor

From the online phenomenon the Astro Poets comes the first great astrology primer of the 21st century. Full of insight, advice and humor for every sign in the zodiac, the Astro Poets' unique brand of astrological flavor has made them Twitter sensations. Their long-awaited first book is in the grand tradition of Linda Goodman's *Sun Signs*, but made for the world we live in today. In these pages the Astro Poets help you see what's written in the stars and use it to navigate your friendships, your career, and your very complicated love life. If you've ever wondered why your Gemini friend won't let you get a word in edge-wise at drinks, you've come to the right place. When will that Scorpio texting "u up?" at 2AM finally take the next step in your relationship? (Hint: they won't). Both the perfect introduction to the twelve signs for the astrological novice, and a resource to return to for those who already know why their Cancer boyfriend cries during commercials but need help with their new whacky Libra boss, this is the astrology book must-have for the twenty-first century and beyond.

The Outsiders

“Everybody who has ever read a book will benefit from the way Keith Houston explores the most powerful object of our time. And everybody who has read it will agree that reports of the book’s death have been greatly exaggerated.”—Erik Spiekermann, typographer We may love books, but do we know what lies behind them? In *The Book*, Keith Houston reveals that the paper, ink, thread, glue, and board from which a book is made tell as rich a story as the words on its pages—of civilizations, empires, human ingenuity, and madness. In an invitingly tactile history of this 2,000-year-old medium, Houston follows the development of writing, printing, the art of illustrations, and binding to show how we have moved from cuneiform tablets and papyrus scrolls to the hardcovers and paperbacks of today. Sure to delight book lovers of all stripes with its lush, full-color illustrations, *The Book* gives us the momentous and surprising history behind humanity’s most important—and

universal information technology.

Value Investing

Crystallography and Crystal Defects Revised Edition A. Kelly, Churchill College, Cambridge, UK G. W. Groves, Exeter College, Oxford, UK and P. Kidd, Queen Mary and Westfield College, University of London, UK The concepts of crystallography are introduced here in such a way that the physical properties of crystals, including their mechanical behaviour, can be better understood and quantified. A unique approach to the treatment of crystals and their defects is taken in that the often separate disciplines of crystallography, tensor analysis, elasticity and dislocation theory are combined in such a way as to equip materials scientists with knowledge of all the basic principles required to interpret data from their experiments. This is a revised and updated version of the widely acclaimed book by Kelly and Groves that was first published nearly thirty years ago. The material remains timely and relevant and the first edition still holds an unrivalled position at the core of the teaching of crystallography and crystal defects today. Undergraduate readers will acquire a rigorous grounding, from first principles, in the crystal classes and the concept of a lattice and its defects and their descriptions using vectors. Researchers will find here all the theorems of crystal structure upon which to base their work and the equations necessary for calculating interplanar spacings, transformation of indices and manipulations involving the stereographic projection and transformations of tensors and matrices.

Mastering the Market Cycle

The Mind Illuminated is a comprehensive, accessible and - above all - effective book on meditation, providing a nuts-and-bolts stage-based system that helps all levels of meditators establish and deepen their practice. Providing step-by-step guidance for every stage of the meditation path, this uniquely comprehensive guide for a Western audience combines the wisdom from the teachings of the Buddha with the latest research in cognitive psychology and neuroscience. Clear and friendly, this in-depth practice manual builds on the nine-stage model of meditation originally articulated by the ancient Indian sage Asanga, crystallizing the entire meditative journey into 10 clearly-defined stages. The book also introduces a new and fascinating model of how the mind works, and uses illustrations and charts to help the reader work through each stage. This manual is an essential read for the beginner to the seasoned veteran of meditation.

Fooling Some of the People All of the Time, A Long Short Story

NAMED BEST MARKETING BOOK OF 2011 BY THE AMERICAN MARKETING ASSOCIATION How organizations can deliver significant performance gains through strategic investment in marketing In the new era of tight marketing budgets, no organization can continue to spend on marketing without knowing what's working and what's wasted. Data-driven marketing improves efficiency and effectiveness of marketing expenditures across the spectrum of marketing activities from branding and awareness, trail and loyalty, to new product launch and Internet marketing. Based on new research from the Kellogg School of Management, this book is a clear and convincing guide to using a more rigorous, data-driven strategic approach to deliver significant performance gains from your marketing. Explains how to use data-driven marketing to deliver return on marketing investment (ROMI) in any organization In-depth discussion of the fifteen key metrics every marketer should know Based on original research from America's leading marketing business school, complemented by experience teaching ROMI to executives at Microsoft, DuPont, Nisan, Philips, Sony and many other firms Uses data from a rigorous survey on strategic marketing performance management of 252 Fortune 1000 firms, capturing \$53 billion of annual marketing spending In-depth examples of how to apply the principles in small and large organizations Free downloadable ROMI templates for all examples given in the book With every department under the microscope looking for results, those who properly use data to optimize their marketing are going to come out on top every time.

Keeping At It

"As with his weekly column, James Montier's Value Investing is a must read for all students of the financial markets. In short order, Montier shreds the 'efficient market hypothesis', elucidates the pertinence of behavioral finance, and explains the crucial difference between investment process and investment outcomes. Montier makes his arguments with clear insight and spirited good humor, and then backs them up with cold hard facts. Buy this book for yourself, and for anyone you know who cares about their capital!" —Seth Klarman, President, The Baupost Group LLC The seductive elegance of classical finance theory is powerful, yet value investing requires that we reject both the precepts of modern portfolio theory (MPT) and pretty much all of its tools and techniques. In this important new book, the highly respected and controversial value investor and behavioural analyst, James Montier explains how value investing is the only tried and tested method of delivering sustainable long-term returns. James shows you why everything you learnt at business school is wrong; how to think properly about valuation and risk; how to avoid the dangers of growth investing; how to be a contrarian; how to short stocks; how to avoid value traps; how to hedge ignorance using cheap insurance. Crucially he also gives real time examples of the principles outlined in the context of the 2008/09 financial crisis. In this book James shares his tried and tested techniques and provides the latest and most cutting edge tools you will need to deploy the value approach successfully. It provides you with the tools to start thinking in a different fashion about the way in which you invest, introducing the ways of over-riding the emotional distractions that will bedevil the pursuit of a value approach and ultimately think and act differently from the herd.

More Than You Know

The definitive translation by Dick Davis of the great national epic of Iran—now newly revised and expanded to be the most complete English-language edition Dick Davis—our pre-eminent translator from the Persian—(The Washington Post)—has revised and expanded his acclaimed translation of Ferdowsi’s masterpiece, adding more than 100 pages of newly translated text. Davis’s elegant combination of prose and verse allows the poetry of the Shahnameh to sing its own tales directly, interspersed sparingly with clearly marked explanations to ease along modern readers. Originally composed for the Samanid princes of Khorasan in the tenth century, the Shahnameh is among the greatest works of world literature. This prodigious narrative tells the story of pre-Islamic Persia, from the mythical creation of the world and the dawn of Persian civilization through the seventh-century Arab conquest. The stories of the Shahnameh are deeply embedded in Persian culture and beyond, as attested by their appearance in such works as *The Kite Runner* and the love poems of Rumi and Hafez. For more than sixty-five years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,500 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators. From the Trade Paperback edition.
