## **The Favor of God**

One of the great privileges we have as Christians is finding favor from the Lord. Yet our understanding of "favor" can be off. We are sometimes told it's all about us--that God gave us that house, that car, that job so we can have all we need. But his provision doesn't stop with us. In this fascinating, empowering book, Gary Wilkerson, pastor and president of World Challenge, paints a bigger, brighter, and more biblical picture of what God's favor is. He shows how our loving Father showers his abundant resources upon us--things like forgiveness, restoration, peace, joy, power, and authority--not only to bless us with a favored, happy life, but for us to joyfully demonstrate this favor to others, whether they are friends, family, or strangers on the street. Because God's favor is not meant to end with us--it is meant to show the beauty of his unearned grace to a hurting, unbelieving world.

Witness to Grace: A Testimony of Favor is a poignant true-life story that chronicles the remarkable journey of W. Franklyn Richardson. Grace, as divine unmerited favor given freely by a loving God, is shown time and time again throughout each season of Richardson's life. From humble and challenging beginnings to honored positions of power and global influence, Witness to Grace gives an intimate portrayal of the rise of one of the most respected religious and civil rights leaders of our time. Richardson bares his heart as he reflects on the gut-wrenching disappointment of loss, the unforgivable oppression of a people, the need for understanding, humility and unification across denominational lines and the power of education to provide unparalleled opportunities through the all-encompassing Grace of God. Against all odds, Richardson found himself the object of God's favor as he leaned on God for strength and direction. If you have ever questioned the value of your purpose, the significance of your future and what you have the capacity to overcome, this book will shift your perception of life and give you a renewed path forward.

## **The Power to Change Today**

What were the intentions of the Founders? Was the American constitution designed to protect individual rights? To limit the powers of government? To curb the excesses of democracy? Or to create a robust democratic nation-state? These questions echo through today's most heated legal and political debates. In this powerful new interpretation of America's origins, Max Edling argues that the Federalists were primarily concerned with building a government that could act vigorously in defense of American interests. The Constitution transferred the powers of war making and resource extraction from the states to the national government thereby creating a nation-state invested with all the important powers of Europe's eighteenth-century "fiscal-military states." A strong centralized government, however, challenged the American people's deeply ingrained distrust of unduly concentrated authority. To secure the Constitution's adoption the Federalists had to accommodate the formation of a powerful national government to the strong current of anti-statism in the American political tradition. They did so by designing a government that would be powerful in times of crisis, but which would make only limited demands on the citizenry and have a sharply restricted presence in society. The Constitution promised the

American people the benefit of government without its costs. Taking advantage of a newly published letterpress edition of the constitutional debates, *A Revolution in Favor of Government* recovers a neglected strand of the Federalist argument, making a persuasive case for rethinking the formation of the federal American state.

### **It's Your Time**

In this novel in Jim Butcher's #1 New York Times bestselling series, an old debt puts Chicago wizard Harry Dresden in harms way Harry's life finally seems to be calming down. The White Council's war with the vampiric Red Court is easing up, no one's tried to kill him lately, and his eager apprentice is starting to learn real magic. For once, the future looks fairly bright. But the past casts one hell of a long shadow. Mab, monarch of the Sidhe Winter Court, calls in an old favor from Harry. Just one small favor he can't refuse one that will trap Harry Dresden between a nightmarish foe and an equally deadly ally, and one that will strain his skills—and loyalties—to their very limits. And everything was going so well for once

### **Favor**

For nearly 5,000 years, the world had been ruled from wooden ships by one man. 241 years ago, the Founding Fathers declared a new course for the human race. Freedom and Liberty were unalienable rights given by God, not government. Through these rights, the People would control a revolutionary new type of government declared in 1776. Unsuccessful in war against the Americans, less than 75 years later, the Globalist Elites formed a new Syndicated Party that would remove the power of Congress, and began legislating from secret think tanks. Again, and again they tried to destroy America, even going so far as to assassinate its Presidents. In 1929, they collapsed the money supply, evaporated the Middle Class, and established the Agency Government.

Almost immediately, that untouchable government began ruling the country. In 2001, they changed the world forever. By 2016, the Clinton Crime Syndicate had become a global consortium of bribery, influence peddling, murder, and subterfuge planning to seize the Presidency itself. But things did not go as planned. For 30 years, Donald Trump refined and polished his plan to make America great again. His upset victory in 2016 came at the hands of tens of millions of awakened Americans who had nearly lost hope. Now, the Syndicate is planning another catastrophic attack to win back their power and subdue the most powerful nation in history. This book is based on a true story of that struggle against those who seek global domination. The events are portrayed as accurately as possible. Travel with my fictional characters on a journey through truth that you will never forget. None of the names have been changed, in memory of the actual men and women who lost their lives fighting the most powerful and corrupt crime syndicate the world has ever known.

relationships, sleepless nights, high blood pressure and ulcers. It destroys friendships, marriages and families, not to mention peace of mind. Anger is especially hard to handle for many Christians who have learned from childhood that "good Christians don't get angry." Meyer argues that properly handled, anger is an alert system that something is wrong and needs to be resolved. In her latest book, she delves into the important process of forgiving, explaining its positive impact on the roots, the forms and the results of anger. Why forgive? Joyce explains that forgiving is the only thing that can free one from the terrible turmoil that anger causes to spill over into every part of life. Meyer understands that life will never be fair, but that is not a reason to let anger destroy our well-being and health. This is her guide to navigating that thorny territory and finding true peace.

### **100 Days of Favor**

Many Christians are under the impression that God's grace and his favor are two different things--that while his grace may be a gift, his favor is something we must earn. This misunderstanding has led to destructive teachings about "prosperity" and blessings, and ultimately to lives that feel unfulfilled and inadequate. Pastor Greg Gilbert puts favor back in its rightful place, as God's gift through Jesus

### **God's Favor**

The grace of God is often referred to as unmerited favor. In fact, the very meaning of grace is favor. In this extraordinary book written at a time when people need God's favor more than ever, Jerry Savelle shows how the favor of God is not only available to the believer, but also promised. Drawing from his own experience and his deep knowledge of the Scriptures, Dr. Savelle explains how to actively walk and grow in divine favor, and by doing so enjoy the practical as well as the supernatural benefits for such a time as this, when many are living in fear and uncertainty. The Favor of God will not just inspire readers. By God's grace and favor, it will empower them.

money subsidizing the liberal arts, and they seem to have an unlikely ally in President Obama. While at a General Electric plant in early 2014, Obama remarked, "I promise you, folks can make a lot more, potentially, with skilled manufacturing or the trades than they might with an art history degree." These messages are hitting home: majors like English and history, once very popular and highly respected, are in steep decline. "I get it," writes Fareed Zakaria, recalling the atmosphere in India where he grew up, which was even more obsessed with getting a skills-based education. However, the CNN host and best-selling author explains why this widely held view is mistaken and shortsighted. Zakaria eloquently expounds on the virtues of a liberal arts education—how to write clearly, how to express yourself convincingly, and how to think analytically. He turns our leaders' vocational argument on its head. American routine manufacturing jobs continue to get automated or outsourced, and specific vocational knowledge is often outdated within a few years. Engineering is a great profession, but key value-added skills you will also need are creativity, lateral thinking, design, communication, storytelling, and, more than anything, the ability to continually learn and enjoy learning—precisely the gifts of a liberal education. Zakaria argues that technology is transforming education, opening up access to the best courses and classes in a vast variety of subjects for millions

### **Without Fear Or Favor**

10th Anniversary Edition: Updated with New Chapter & Foreword Pastor Joel Osteen asks everyone to examine what he or she really believes. Why is this important? Because we will become what we believe. Our beliefs will prove either a barrier or vehicle as we strive to go higher, rise above our obstacles, and to live in health, abundance, and victory. In YOUR BEST LIFE NOW Osteen says, "I am what I am today because of what I believed about myself yesterday. And I will be tomorrow what I'm believing about myself right now. God sees us as more than conquerors, able to fulfill our destiny. We need to see ourselves through the eyes of our Creator." He says that our self-image should mirror exactly what God says about us, not what we feel or think. And he encourages readers to be people of faith, for if you can see the invisible, God will do the impossible.

### **Daily Readings from The Power of Favor**

This book presents the case that the origins of American liberty should not be sought in the constitutional-reformist feats of its "statesmen" during the 1780s, but rather in the political and social resistance to their efforts. There were two revolutions occurring in the late 18th century America: the modern European revolution "in favour of government," pursuing national unity, "energetic" government and centralization of power (what scholars usually dub "American founding"); and a conservative, reactionary counter-revolution "in favour of liberty," defending local rights and liberal individualism against the encroaching political authority. This is a book about this liberal counter-revolution and its ideological, political and cultural

sources and central protagonists. The central analytical argument of the book is that America before the Revolution was a stateless, spontaneous political order that evolved culturally, politically and economically in isolation from the modern European trends of state-building and centralization of power. The book argues, then, that a better model for understanding America is a "decoupled modernization" hypothesis, in which social modernity is divested from the politics of modern state and tied with the pre-modern social institutions.
