Leverage mindful awareness and intention to achieve better outcomes
Overworked and Overwhelmed: The Mindfulness Alternative offers practical insights for the executive, manager or professional who feels like their RPM is maxed out in the red zone. By making the concepts and practices of mindfulness simple, practical and applicable, this book offers actionable hope for today's overworked and overwhelmed professional. New research shows that the smartphone equipped professional is connected to work 72 hours a week. Forty eight percent of Americans report that their stress level is up and that the number one source of stress is the job pressure of a 24/7 world. What's the alternative? Top leadership coach and educator Scott Eblin offers one in Overworked and Overwhelmed: The Mindfulness Alternative. While mindfulness is one of the "Top Ten Trends for 2014 and Beyond," many professionals think it's just too hard to give it a try. In this book, Eblin shows that mindfulness that makes a difference doesn't require meditating like a Buddhist monk. Overworked and Overwhelmed is a handbook for more mindful work and living that offers: "Must know" mindfulness basics that today's professional needs to thrive in a 24/7 world. Inspiring examples of mindfulness in action from dozens of leaders ranging from a U.S. Coast Guard Commandant to the CEO of Hilton Worldwide. A self assessment for readers to understand how they perform at their best. Simple routines to reduce stress and sustain peak performance. A personal planning framework for creating the outcomes that matter most at home, at work and in the community. Even small increases in mindfulness can lead to big changes in productivity and quality of life for the overworked and overwhelmed professional. Overworked and Overwhelmed: The Mindfulness Alternative is a guide for doing just that.

Daddy for Life

Tess loves math because it's the one subject she can trust—there's always just one right answer, and it never changes. But then she starts algebra and is introduced to those pesky and mysterious variables, which seem to be everywhere in eighth grade. When even your friends and parents can be variables, how in the world do you find out the right answers to the really important questions, like what to do about a boy you like or whom to tell when someone's done something really bad? Will Tess's life ever stop changing long enough for her to figure it all out?

10 Ways To Avoid Being A Deadbeat Dad

In spite of the fact that nearly half of all marriages end in divorce, I think it is safe to say most of these couples get married wanting their marriage to work. This isn't to say they don't go into it with the attitude of if-it-doesn't-work-we-can-get-a-divorce, but no one (at least I hope no one) gets married wanting their marriage to fail. Loving someone until death isn't easy in the best and most committed marriages. You won't always agree on how to spend money, raise kids, or spend the holidays. You won't always want the same things, have the same goals, come from similar backgrounds, or have the same likes and dislikes. After all, you are two separate people. There is a right way and a wrong way to get to know someone for marriage. The wrong way is to get caught up in the excitement and nuance of a budding relationship and in the process completely forget to ask the critical questions that help determine compatibility. So how does it happen? How does a marriage actually make it even thrive for twenty, thirty, fifty, or even sixty-plus years?

You can go after the job you want—and get it! You can take the job you have—and improve it! You can take any situation—and make it work for you! Dale Carnegie's rock-solid, time-tested advice has carried countless people up the ladder of success in their business and personal lives. One of the most groundbreaking and timeless bestsellers of all time, *How to Win Friends & Influence People* will teach you: -Six ways to make people like you -Twelve ways to win people to your way of thinking -Nine ways to change people without arousing resentment And much more! Achieve your maximum potential—a must-read for the twenty-first century with more than 15 million copies sold!

Top 10 Secrets for Spending Your Money Wisely

A primary care doctor is skeptical of his patient's concerns. A hospital nurse or intern is unaware of a drug's potential side effects. A physician makes the most “common” diagnosis while overlooking the signs of a rarer and more serious illness, and the patient doesn't see the

necessary specialist until it's too late. A pharmacist dispenses the wrong drug and a patient dies as a result. Sadly, these kinds of mistakes happen all the time. Each year, 6.1 million Americans are harmed by diagnostic mistakes, drug disasters, and medical treatments. A decade ago, the Institute of Medicine estimated that up to 98,000 people died in hospitals each year from preventable medical errors. And new research from the University of Utah, HealthGrades of Denver, and elsewhere suggests the toll is much higher. Patient advocates and bestselling authors Joe and Teresa Graedon came face-to-face with the tragic consequences of doctors' screwups when Joe's mother died in Duke Hospital—one of the best in the world—due to a disastrous series of entirely preventable errors. In *Top Screwups Doctors Make and How to Avoid Them*, the Graedons expose the most common medical mistakes, from doctor's offices and hospitals to the pharmacy counters and nursing homes. Patients across the country shared their riveting horror stories, and doctors recounted the disastrous—and sometimes deadly—consequences of their colleagues' oversights and errors. While many patients feel vulnerable and dependent on their health care providers, this book is a startling wake-up call to how wrong doctors can be. The good news is that we can protect ourselves, and our loved ones, by being educated and vigilant medical consumers. The Graedons give patients the specific, practical steps they need to take to ensure their safety: the questions to ask a specialist before getting a final diagnosis, tips for promoting good communication with your doctor, presurgery checklists, how to avoid deadly drug interactions, and much more. Whether you're sick or healthy, young or old, a parent of a young child, or caring for an elderly loved one, *Top Screwups Doctors Make and How to Avoid Them* is an eye-opening look at the medical mistakes that can truly affect any of us—and an empowering guide that explains what we can do about it. This special edition includes "Crack the Code". Which covers how the Tax Cuts & Jobs Act can benefit your personal taxes. At its inception, the tax law was 30 words. That's right, 30 words! It has ballooned over the years to over 70,000 pages. Recently, the House and Senate passed a series of sweeping changes to the tax laws. These were meant to make the laws less complicated. Which is great. But when you're taking something that is massively complicated, and making it less complicated, you still end up in one place complicated. Sandy Botkin is a certified public accountant (CPA) and former IRS trainer. He has dedicated the better part of his life to helping people better understand the tax laws. To making sure that everyone takes advantage of every deduction to which they are legally allowed. Yes, your accountant or tax preparer handles that for you. But, are they finding every deduction? Or are they simply inputting what you give them and filing the forms? You need to know the best deductions to take for your business. This handbook, "7 Simple Ways to Legally Avoid Paying Taxes: Special Edition", gives you an easy-to-understand guide covering the most overlooked deductions. Plus, Sandy takes you through how best to avoid an audit. More importantly, the steps you need to take should that dreaded audit letter arrive in your mailbox. Previously available under the title "7 Simple Ways to Navigate the New Tax Laws for the Self-Employed".

Cara Meredith grew up in a colorless world. From childhood, she didn't think issues of race had anything to do with her. A colorblind rhetoric had been stamped across her education, world view, and Christian theology. Then as an adult, Cara's life took on new, colorful hues. She realized that her generation, seeking to move beyond ancestral racism, had swung so far that they tried to act as if they didn't see race at all. But that picture neglected the unique cultural identity God gives each person. When Cara met and fell in love with the son of black icon, James Meredith, she began to listen to the stories and experiences of others in a new way, taking note of the cultures, sounds and shades of life already present around her. After she married and their little family grew to include two mixed-race sons, Cara knew she would never see the world through a colorless lens again. A writer and speaker in an interracial marriage and mixed-race family, Cara finds herself more and more in the middle of discussions about racial justice. In *The Color of Life*, she asks how do we navigate ongoing and desperately-needed conversations about race? How do we teach our children a theology of reconciliation and love? And what does it mean to live a life that makes space for seeing the imago Dei in everyone? Cara's illuminating memoir paints a beautiful path from white privilege toward racial healing, from ignorance toward seeing the image of God in everyone she meets.

Stalking is an increasingly prevalent and disturbing problem in today's society, made worse and more frightening by the internet and the increasing amount of legal and illegal surveillance that is happening. Cyberstalking has become such a problem that it has had to be enshrined in law as a distinct crime. It is, therefore, important that potential innocent victims are able to spot the signs that they are being, or about to be, stalked, what to do to prevent and dissuade the stalker and what rights and resort they have against the perpetrators. This compilation covers all this as well as looking at self-defence as a means of protection – and its legal implications and the increasingly relevant issue of surveillance and 'gang stalking.' You have the right to protection– and informing yourself is the first step in this process.

“Guides readers toward the road less consumptive, offering practical advice and moral support while making a convincing case that individual actions . . . do matter.” —Elizabeth Royte, author, *Garbage Land* and *Bottlemania* Like many people, Beth Terry didn’t think an individual could have much impact on the environment. But while laid up after surgery, she read an article about the staggering amount of plastic polluting the oceans, and decided then and there to kick her plastic habit. In *Plastic-Free*, she shows you how you can too, providing personal anecdotes, stats about the environmental and health problems related to plastic, and individual solutions and tips on how to limit your plastic footprint. Presenting both beginner and advanced steps, Terry includes handy checklists and tables for easy reference, ways to get involved in larger community actions, and profiles of individuals—Plastic-Free Heroes—who have gone beyond personal solutions to create change on a larger scale. Fully updated for the paperback edition, *Plastic-Free* also includes sections on letting go of eco-guilt, strategies for coping with overwhelming problems, and ways to relate to other people who aren’t as far along on the plastic-free path. Both a practical guide and the story of a personal journey from helplessness to empowerment, *Plastic-Free* is a must-read for those concerned about the ongoing health and happiness of themselves, their children, and the planet.
