or loss over a specified period. and (b) identify the continuing differences between IFRSs and US GAAP. IFRS 3 and FASB 141 Article originally published in the Technical Matters column of Financial Management, April 2008 edition, which examines changes to the FASB's and IASB's standards on

International Financial Reporting Standards - Wikipedia

Factoring is a financial transaction and a type of debtor finance in which a business sells its accounts receivable (i.e., invoices) to a third party (called a factor) at a discount. A business will sometimes factor its receivable assets to meet its present and immediate cash needs. Forfeiting is a factoring arrangement used in international trade finance by exporters who wish to sell their

The FAR (Financing Accounting and Reporting) section of the CPA exam covers topics like GAAP, financial statements, financial transactions, and reporting for non-profits. Many candidates consider the CPA FAR exam to be the most challenging of the four because of its length and scope of information covered on the test.

International Financial Reporting Standards, commonly called IFRS, are accounting standards issued by the IFRS Foundation and the International Accounting Standards Board (IASB). They constitute a standardised way of describing the company's financial performance and position so that company financial statements are understandable and comparable across international boundaries.
