The Canadian Reporter

The Canadian Reporter was the first comprehensive reporting and newswriting text written for Canadian students. The new edition continues on the strong foundation built by previous editions. It is grounded in the fundamental principles of journalism and the techniques for practicing journalism within the unique Canadian social, legal and political context. The newest edition has been thoroughly updated and refocused for the digital age. The authors encourage journalism that is independent, active, creative, knowledgeable and disciplined.

Writing and Reporting News

Sports Journalism introduces students to sports reporting careers and to the writing style sports writers and media relations professionals use. The book stresses the importance of basic writing fundamentals and high ethical standards, essential values for sports journalists. Introductory chapters acquaint readers with issues and challenges in an industry in transition: changing technology, multimedia capability, citizen journalists and bloggers, shrinking news holes, and the deadline-dictated lifestyle of sports journalists.

Skills chapters elaborate on news values and the conventions of journalism as they apply to sports writing. From leads to nut grafs, inverted pyramid to Model T, simple sentences to headlines, interviewing to using quotations, Sports Journalism focuses on the basics. The book expands the writer's experience into building relationships with sources and media contacts, using numbers and statistics, practicing AP style, and abiding by legal and ethical standards. An easily accessible format uses checklists, illustrations, and anecdotes to show story organization, news release format, news conference protocol, and media guide content. Chapters include suggested exercises and activities.

exercises built around the unique demands of online newswriting will prepare you to meet the demands of a changing media landscape. Key Features: “Writing Exercises” enable you to recall & demonstrate your understanding of various elements found in each chapter in *Dynamics of News Writing and Reporting*. “Practice Writing” exercises empower you to apply their knowledge in a safe, in-class environment. “Live-Action Exercises” encourage you to expand their knowledge and experience through out-of-class reporting and writing opportunities.

The Elements of Journalism

News gathering is a large, complicated and often messy task that has traditionally been viewed by journalists as irretrievably idiosyncratic, best learned through trial and error. *Advanced Reporting* takes the opposite approach, focusing on reporting as a process of triangulation based on three essential activities: analyzing documents, making observations and conducting interviews. In this readable book, veteran journalism professor Miles Maguire shows how the best reporters use these three tools in a way that allows them to cross-check and authenticate facts, to reduce or eliminate unsupportable allegations and to take readers and viewers to a deeper level of insight and understanding. This book will help to prepare students for a profession marked by increasing complexity and competition. To succeed in this environment, journalists must learn to make the most of digital media to intensify the impact of their work. At the same time, reporters must contend with a host of sophisticated public relations techniques while engaging with news audiences that no longer just consume journalism, but also collaborate in its creation. Discussion questions and exercises help students put theory into practice.

Nonfiction is in the facts. Creative nonfiction is in the telling. It reads like fiction, but stays loyal to the truth. Philip Gerard walks this fine line with confidence, style and utter zeal, looking at the world with a reporters unflinching eye and offering it up with all the skill of a master storyteller. With the same clarity and passion, Gerard offers instruction and advice to help aspiring and experienced writers create pieces so compelling, so engaging, that readers will never forget them.

A Wonderful Stroke of Luck

Everyday life, no whether the issues or events arise next-door or a continent away, raises questions and concerns that the public counts on journalists to answer and, more important, confront. More than ever before, we all rely on the news media for warnings, explanations and insights. The profession - and society - cannot afford lazy, inept, uncommitted journalists. Today's reporters must learn how to cover public affairs intelligently and thoroughly. First you must learn about the institutions and people who influence the news; understanding how a legislative conference committee functions or how a trial is conducted remain important pre-requisites. But it is not enough merely to know how to report. Journalists must also understand how they see, define and influence the news. Don't be fooled by the daily dose of fluffy stories about fads, fashions or fetishes. People love to revel in celebrity gossip or fantasize about extreme makeovers. But Donald Trump's love life or the South Beach Diet don't satisfy when people worry about a home invasion in their neighborhood or a rezoning proposal to bring a Wal-Mart super center to town or a Department of Education report that their child's school scored bottom-most in reading achievement. Public Affairs Reporting Now is intended to teach you the best practices and give you the best advice for covering what's generically known as "public affairs reporting. It's a term that's neither inspiring nor precise, but it's long been a convenient way of describing the kind of news coverage that keeps people informed as citizens and keeps our institutions, public and private, focused on the public good.

Workbook for News Reporting and Writing

A comprehensive and accessible introductory text for journalism students. Lanson and Stephens provide thorough instruction on

writing and reporting, examples of good and bad writing and extensive opportunities to apply their advice through practical exercises. Based on the authors' careers as journalists and journalism professors--and on the experience of dozens of other reporters--this textbook/workbook gives students a clear, logical introduction to the craft of journalism. The book has three goals: to teach clear, concise and accurate writing; to teach students how to find reliable information about newsworthy events and issues and how to set this information within an understandable and meaningful context; to explain the workings of print, online and broadcast newsrooms and how the gathering and delivery of news are changing in today's increasingly digital and cross-media age.--From publisher description.

Dynamics of News Reporting and Writing

This book is about writing and storytelling. The authors provide plenty of fresh insights helpful. Filled with current examples and tips from Pulitzer-Prize winning professionals, writing and reporting. It offers practical and real guidance to readers truly interested in a future in journalism. It is very useful book.

Writing and Reporting News, 4th

In July 1997, twenty-five of America's most influential journalists sat down to try and discover what had happened to their profession in the years between Watergate and Whitewater. What they knew was that the public no longer trusted the press as it once had. They were keenly aware of the pressures that advertisers and new technologies were putting on newsrooms around the country. But, more than anything, they were aware that readers, listeners, and viewers — the people who use the news — were turning away from it in droves. There were many reasons for the public's growing lack of

trust. On television, there were the ads that looked like news shows and programs that presented gossip and press releases as if they were news. There were the "docudramas," television movies that were an uneasy blend of fact and fiction and which purported to show viewers how events had "really" happened. At newspapers and magazines, celebrity was replacing news, newsroom budgets were being slashed, and editors were pushing journalists for more "edge" and "attitude" in place of reporting. And, on the radio, powerful talk personalities led their listeners from sensation to sensation, from fact to fantasy, while deriding traditional journalism. Fact was blending with fiction, news with entertainment, journalism with rumor. Calling themselves the Committee of Concerned Journalists, the twenty-five determined to find how the news had found itself in this state. Drawn from the committee's years of intensive research, dozens of surveys of readers, listeners, viewers, editors, and journalists, and more than one hundred intensive interviews with journalists and editors, *The Elements of Journalism* is the first book ever to spell out — both for those who create and those who consume the news — the principles and responsibilities of journalism. Written by Bill Kovach and Tom Rosenstiel, two of the nation's preeminent press critics, this is one of the most provocative books about the role of information in society in more than a generation and one of the most important ever written about news. By offering in turn each of the principles that should govern reporting, Kovach and Rosenstiel show how some of the most common conceptions about the press, such as neutrality, fairness, and balance, are actually modern misconceptions. They also spell out how the news should be gathered, written, and reported even as they demonstrate why the First Amendment is on the brink of becoming a commercial right rather than something any American citizen can enjoy. *The Elements of Journalism* is already igniting a national dialogue on issues vital to us all. This book will be the starting point for discussions by journalists and members of the public about the

nature of journalism and the access that we all enjoy to information for years to come.

Writing and Reporting News: A Coaching Method

WRITING AND REPORTING NEWS prepares students for the changing world of journalism by emphasizing traditional basic skills while also stressing new trends in the convergence of print, broadcast and online media. With new information about blogs, multimedia writing, and other skills students will need for careers in the media, the Fifth Edition retains its emphasis on writing fundamentals and ethics in journalism, as well as the coaching method, which features tips and techniques from writing coaches and award-winning journalists. The text's strong "storytelling" approach with stories about journalists and its built-in instructional material make it accessible and easy for students to learn effective writing and reporting techniques for every news medium.

and presentation, all offered in this outstanding text. Mayeux's lucid approach is aimed at developing skills for accurate, clear, complete, and interesting writing and reporting. *Broadcast News Writing and Reporting* covers all the essential topics, including the role and responsibility of journalists in small- and medium-market news operations. Both prospective and veteran broadcast news writers and reporters will benefit from this thorough presentation of contemporary techniques and practices.

News Writing and Reporting for Today's Media

This concise guide to mastering the fundamentals of journalism focuses on essential skills before exploring theory through a selection of readings by journalists and scholars. Providing a balanced foundation in journalism practice and thought, *News Writing and Reporting* helps students develop practical skills and think critically about the roles and responsibilities of journalists today.

Advanced Reporting

This text covers the full experience of sports writing. Authors Wayne Wanta and Scott Reinardy approach the topic using their own professional experience as sports writers and editors to give students a realistic view of the sports writing profession. After the overview and introduction to sports journalism, the authors move into the stages of article writing, organized around article beginnings, middles, and endings. The text also covers other types of sports stories, such as columns, profiles, and news, and addresses style and ethics issues. It provides students with a full understanding of how to produce quality content for sports stories, as well as offer insights as to what to expect in the sports reporter position.

Melvin Mencher's News Reporting and Writing

For a century and a half, journalists made a good business out of selling the latest news or selling ads next to that news. Now that news pours out of the Internet and our mobile devices—fast, abundant, and mostly free—that era is ending. Our best journalists, Mitchell Stephens argues, instead must offer original, challenging perspectives—not just slightly more thorough accounts of widely reported events. His book proposes a new standard: “wisdom journalism,” an amalgam of the more rarified forms of reporting—exclusive, enterprising, investigative—and informed, insightful, interpretive, explanatory, even opinionated takes on current events. This book features an original, sometimes critical examination of contemporary journalism, both on- and offline. And it finds inspiration for a more ambitious and effective understanding of journalism in examples from twenty-first-century articles and blogs, as well as in a selection of outstanding twentieth-century journalism and Benjamin Franklin’s eighteenth-century writings. Most attempts to deal with journalism’s current crisis emphasize technology. This book emphasizes mindsets and the need to rethink what journalism has been and might become.

Telling Science Stories

A practical manual for anyone who wants to turn scientific facts into gripping science stories, this book provides an overview of story elements and structure, guidance on where to locate them in scientific papers and a step-by-step guide to applying storytelling techniques to writing about science. In this book, Martin W. Angler outlines basic storytelling elements to show how and where fledgling science storytellers can find them in scientific output. Journalistic techniques like selection through news values and narrative interviews are covered in dedicated chapters. A variety of

writing techniques and approaches are presented as a way of framing science stories in ways that are informative and compelling in different media – from short films to news articles. Practical examples, selected interviews and case studies complement each chapter, with exercises and experimentation suggestions included for deeper understanding. Review questions at the end of each chapter cement the newly gained knowledge to make sure readers absorb it, with links to articles and online tools inviting further reading. A valuable resource for students of journalism and science communication as well as professional journalists, scientists and scientists-in-training who want to engage with the public or simply improve their journal papers. This book is a one-stop shop on science storytelling with a clear focus on providing practical techniques and advice on how to thrive as science writers and communicate science in all of its complexity.

Writing and Reporting the News as a Story

Journalism shows you how to write quickly and expertly for all major forms of journalistic writing today. Whether producing a snappy headline or reporting a full length news story, piecing together a ‘feature’ or compiling a blog, this book will guide you through the pitfalls and inspire you to write better. Written by an experienced journalist, the book outlines the principles of journalistic writing, then illustrates these with examples of good – and not-so-good – practice from the real world, helping you to hone your writing skills for both print and online media. Learn how to craft text like the professionals, with advice on everything from how to write compelling prose to getting your first job in journalism. This book is a ‘must-read’ for all practising and aspiring journalists and writers.

This text does for reporting what Tim Harrower's *The Newspaper Designer's Handbook* has previously done for design: make it fun and accessible to newcomers. Harrower is an award-winning editor, designer and columnist who has previously taught at Portland State University and currently conducts journalism workshops. The second edition of *Inside Reporting* continues to emphasize the basics but also provides a wealth of information on online reporting and packaging stories in more visual, interactive ways. It also includes more useful information on feature writing--from stories to reviews and column-writing--than any other text in the field.

News Writing and Reporting for Today's Media

Journalists in today's media environment require a skill set that can be adapted to a variety of media. *Dynamics of News Reporting and Writing: Foundational Skills for a Digital Age* teaches students the foundational skills they need to successfully report and write the news in an evolving digital landscape. Author Vince F. Filak offers guidance on the essential skills of the industry while weaving in the "how-to's" of writing digital news. Recognizing that well-crafted stories are founded on sharp prose, this new text covers the foundational elements of newswriting, such as lead writing, structure, and storytelling while also teaching students how to think critically and determine what matters most to their readers. **Key Features:** An audience-centric approach encourages students to understand why and how news is relevant to the lives of their readers before they even start digging into their stories. "Write Now! Exercises" provide students with an opportunity to immediately practice the core set of skills they have just learned and apply these skills to various platforms. "Consider This" debates spark classroom discussions by encouraging students to take a closer look at a current issue or ideological dilemma and make a valid case for their position. "Thoughts from a Pro" offer students

an up-close look at a specific aspect of reporting and writing from a professional who is plying their trade each day.

Dynamics of Writing

Now in its fourth edition, this classic textbook has grown up alongside the newspaper industry. Today, as ever, it provides students of newspaper journalism with a toolkit for gathering news and filling ever-increasing space with first-rate copy for print and online. Detailed and down-to-earth, this book delivers:

- Guidance on news gathering, from government and business to sport and religion
- Guidance on news writing, drawing on over 300 examples that have appeared in print, discussing why they work or how they could have been better
- Guidance on feature writing, including profiles, comment, leading articles, obituaries and reviews
- Specific chapters on ethical reporting and the possibilities and pitfalls of investigative journalism
- A review of the new financial realities that the internet is imposing on the media.

Informed by over half a century's professional experience and fully revised to give a nuanced account of the skills required in an online environment, this book is an essential companion for your journalism degree and beyond.
